B3. Prospects

The Group anticipates the challenging environment for the industry to continue for the year, as high commodities prices, rising freight costs, implementation of minimum wages of RM1,500.00, hike in the overnight policy rate of another 25 basis point by Bank Negara Malaysia, weakening of Ringgit Malaysia and geopolitical uncertainties weigh on the Group's margin while rising inflationary pressures may dampen discretionary spending.

The Group's latest diversification also reflected our confidence in the long-term potential of our newly acquired subsidiary and our ability to manage the risks of the current landscape while strategies are well placed to drive future growth.

Despite overall situations and business environment are still full of uncertainties and remain unpredictable, the Group is committed to the fulfillment of its obligations to steer through these tough times.

Whilst the Board foresee that the market will still be influenced by the COVID-19 development, the Board opined that the Group's effort in maintaining the business performance would continue to be challenging.
