# Chairman's Statement

On behalf of the Board of Directors, I am pleased to present to you the Annual Report of Kuantan Flour Mills Berhad (KFM) and the audited Financial Statements of the Group and the Company for the financial year ended 31st March 2010.

### **Financial Review**

For the financial year ended 31 March 2010, the Group recorded a lower loss of RM3.79 million as against a loss of RM4.98 million for the previous financial year despite achieving a lower revenue of RM86.31 million as compared to RM116.68 million.

At the Company level, we recorded a loss of RM3.71 million compared to a loss of RM4.62 million for the previous financial year, mainly due to reasons stated in the industry review below.

# **Review Of The Industry**

The Group was operating under very tough conditions amidst uncertainty in the global economy that was marred by a weak and depressed financial market. The first half of the financial year saw the company going through a very tough period as a result of high material costs. The Group also faced intense competition within the industry with selling prices of non-general purpose flour dropping further.

However, performance of the Group has improved during the second half of the year as profit was recorded. This was mainly due to a more stable raw material cost and the strengthening of our Ringgit against US Dollar. Continuous efforts from the employees also contributed to improvement in the efficiency of our operations.

# **Subsidiary Companies**

All subsidiary companies are dormant during the financial year under review.

# **Corporate Social Responsibility (CSR)**

The Board acknowledges the importance of the CSR, the framework of which has been launched by the Bursa Malaysia on 05 September 2006.

During the financial year under review, the Group had made some contribution in kinds for underprivileged children and single parents during the Chinese New Year festive season.

Trainings are being organized from time to time for its employees of all levels. An annual dinner and festive gatherings were also held for the staffs. We firmly believe that a person should not only work hard but also play hard. In this respect, games are organized annually and competed among the various teams within the organization. We will continue to identify activities where our support can make a difference.

# **Prospects For The Year Ahead**

There are still a lot of uncertainties on the recovery of the global economy, and the volatility of the commodities market. The Group is taking all the necessary measures to mitigate the challenges ahead. Barring any other unforeseen circumstances, the Group is optimistic of achieving better results in the future.

# Acknowledgement

The Board of Directors would like to express its deepest and sincere appreciation to management and staff for their dedication and worthy contributions. I also wish to express the Board's appreciation to all customers, bankers, business associates and shareholders for their continuous support and faith in the group.

The Board of Directors would also like to extend their deepest appreciation to Dato' Setia Abdul Halim Bin Dato' Haji Abdul Rauf, Datuk Seri Krishna Kumar a/l Dato' Sivasubramaniam, JP and Dato' Jeyaraj a/l V. Ratnaswamy who have resigned for their contributions during their tenure.

Thank you.

# Tan Sri Mohamed bin Ngah Said

**Executive Chairman** 

The Board of Directors ("the Board") continues to use its best endeavour to ensure the highest standards of corporate governance to be practiced throughout the Group as a fundamental part of discharging its responsibilities in order to protect and enhance stakeholders' value. To this end, the Board fully supports the recommendations of the Malaysian Code of Corporate Governance.

The Board is pleased to set out below a description of how the Group has applied the principles as set out in the Code.

### **BOARD OF DIRECTORS**

This is an experienced Board comprising members with a wide and diverse range of business, financial and technical backgrounds who leads the Group. A brief profile of each Director is presented on pages 14 to 15 of this Annual Report.

### **BOARD BALANCE**

The Board currently has five (5) Directors, comprising two (2) Executives and three (3) Non-Executives. The Executive Directors implement the policies and decisions of the Board, oversee the operations and initiate business development efforts for the Group whilst the Non-Executive Directors bring a wide range of business experience and expertise to the Board's discussions and decision making.

### **BOARD MEETINGS**

During the financial year ended 31 March 2010, the Board met on (5) occasions.

# Statement Of Internal Control

# INTRODUCTION

In compliance with the Malaysian Code of Corporate Governance requirements that a listed entity is required to maintain a sound system of internal control in order to safeguard shareholders' investments and the Group's assets, the Board of Directors ("Board") has prepared this Statement of Internal Control pursuant to paragraph 15.26(b) of the Bursa Malaysia Securities Berhad's Listing Requirements and in accordance with the Statement on Internal Control – Guidance for Directors of Public Listed Companies. This statement outlines the state, nature and scope of internal control of the Group during the financial year under review.

### **BOARD RESPONSIBILITIES**

The Board is aware of their responsibilities and is committed to maintain a sound system of internal controls and risk management practices. An appropriate control mechanism and framework has been established under the system of internal control and its adequacy and integrity is being reviewed regularly. However, such systems are designed only to manage and not eliminate the risk of failure and can only provide reasonable and not absolute assurance against any misstatement or losses. The internal control system covers all aspect of financial, organizational, operational, compliance controls as well as risk management procedures.

# **RISK MANAGEMENT AND INTERNAL AUDIT**

The Board recognizes the importance of maintaining a sound system of internal control and effective risk management. The management had established a risk management process to identify, evaluate and manage significant risks faced by the Group and take appropriate measures to mitigate any such risks. The Board is committed to continuously improve and strengthen the risk management process of the Group. Evaluation of the company's policies, procedures and objectives will be continuously reviewed and the Board will be kept updated on any significant changes in the business. The financial performance status and all other key business indicators of the Group will also be reported to the Board on a quarterly basis.

During the financial year under review, the internal audit function was conducted by an external professional firm of internal auditors to independently assess the adequacy, efficiency and effectiveness of the internal control function of the Group. They would report to the Audit Committee on the status of all audit issues raised until the issues have been satisfactorily resolved. The Audit Committee would ensure that the internal auditors have the sufficient resources to perform their functions adequately.

# **System of Internal Control**

The following key elements of the System of Internal Control have been established within the Group:

- A well defined organization structure with clear reporting lines, responsibilities and delegated authority which is updated regularly;
- Well documented internal policies, objectives and operational procedures formulated in compliance with ISO certification;
- Quarterly review of financial results by the Audit Committee and the Board;
- Executive Director's active direct involvement in the business operations;
- Review of annual budgets and approved by the Board for accountability and transparency;
- Regular meetings to discuss and resolve operational and other major issues affecting the Group;
- Structured training and development programs conducted both internally and externally covering all levels of staff to upgrade their knowledge, skill and competency.

This statement is made in accordance with a resolution of the Directors dated 23 August 2010.

# Independent Auditors' Report

# TO THE MEMBERS OF KUANTAN FLOUR MILLS BERHAD (INCORPORATED IN MALAYSIA)

# Report on the financial statements

We have audited the financial statements of Kuantan Flour Mills Berhad, which comprise the balance sheets as at 31 March 2010 of the Group and of the Company, the income statements, statements of changes in equity and cash flow statements of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 22 to 56.

# Directors' responsibility for the financial statements

The directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance with Financial Reporting Standards and the Companies Act 1965 in Malaysia. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

# Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit envidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# **Opinion**

In our opinion, the financial statements have been properly drawn up in accordance with Financial Reporting Standards and the Companies Act 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as at 31 March 2010 and of their financial performance and cash flows for the year then ended.

# Independent Auditors' Report (cont'd.)

# TO THE MEMBERS OF KUANTAN FLOUR MILLS BERHAD (INCORPORATED IN MALAYSIA)

# Report on other legal and regulatory requirements

In accordance with the requirements of the Companies Act 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records required by the Act to be kept by the Company and its subsidiaries have been properly kept in accordance with the provisions of the Act.
  - In our opinion, except for a dormant subsidiary, KFM-Bunge Flour Mixes Sdn. Bhd. which registers have not been properly updated, the registers required by the Act to be kept by the Company and by its other subsidiaries have been properly kept in accordance with the provisions of the Act.
- (b) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.
- (c) The auditors' reports on the financial statements of the subsidiaries were not subject to any qualification material to the consolidated financial statements and did not include any comment required to be made under Section 174(3) of the Act.

### Other matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying notes form an integral part of the financial statements.

31 MARCH 2010

# 1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of the Bursa Malaysia Securities Berhad. The registered office of the Company is located at Kawasan Lembaga Pelabuhan Kuantan, KM25, Jalan Kuantan/Kemaman, Tanjung Gelang, P.O.Box 387, 25740 Kuantan, Pahang Darul Makmur.

The principal activities of the Company are flour milling and trading in its related products. The principal activities of the subsidiaries are described in Note 12 to the financial statements.

There have been no significant changes in the nature of the principal activities during the financial year.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 19 July 2010.

### 2. SIGNIFICANT ACCOUNTING POLICIES

# 2.1 Basis of Preparation

The financial statements comply with Financial Reporting Standards ("FRSs") and the Companies Act 1965 in Malaysia.

The financial statements of the Group and of the Company have also been prepared on a historical cost basis.

The financial statements are presented in Ringgit Malaysia (RM).

# 2.2 Summary of Significant Accounting Policies

# (a) Subsidiaries and Basis of Consolidation

### (i) Subsidiaries

Subsidiaries are entities over which the Group has the ability to control the financial and operating policies so as to obtain benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

In the Company's separate financial statements, investments in subsidiaries are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

# (ii) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. The financial statements of the subsidiaries are prepared for the same reporting date as the Company.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. In preparing the consolidated financial statements, intragroup balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

- 2.2 Summary of Significant Accounting Policies (Cont'd.)
  - (a) Subsidiaries and Basis of Consolidation (Cont'd.)
    - (ii) Basis of Consolidation (Cont'd.)

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill. Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in profit or loss.

Minority interests represent the portion of profit or loss and net assets in subsidiaries not held by the Group. It is measured at the minorities' share of the fair value of the subsidiaries' identifiable assets and liabilities at the acquisition date and the minorities' share of changes in the subsidiaries' equity since then.

# (b) Property, Plant and Equipment and Depreciation

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land has an unlimited useful life and therefore is not depreciated. Building under construction is also not depreciated as this asset is not available for use. Depreciation of other property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following annual rates:

| Buildings, factory and civil works | 2% - 5%  |
|------------------------------------|----------|
| Plant and machinery                | 3.33%    |
| Equipment and fixtures             | 20%      |
| Motor vehicles                     | 5% - 20% |

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in profit or loss.

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

# 2.2 Summary of Significant Accounting Policies (Cont'd.)

### (c) Impairment of non-financial assets

The carrying amounts of assets, other than inventories and deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs to.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated to reduce the carrying amount of the assets in the unit or groups of units on pro-rata basis.

An impairment loss is recognised in profit or loss in the period in which it arises.

### (d) Inventories

Inventories are stated at lower of cost and net realisable value.

Cost is determined using the first in, first out method. The cost of raw materials comprises costs of purchase. The costs of finished goods and work-in-progress comprise costs of raw materials, direct labour, other direct costs and appropriate proportions of manufacturing overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated necessary costs to make the sale.

# (e) Financial instruments

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends and gains and losses relating to a financial instrument classified as a liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly in equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

# (i) Cash and cash equivalents

For the purposes of the cash flow statements, cash and cash equivalents include cash in hand and at bank and deposits at call, net of outstanding bank overdraft.

# 31 MARCH 2010

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

# 2.2 Summary of Significant Accounting Policies (Cont'd.)

### (e) Financial instruments (cont'd.)

# (ii) Other non-current investments

Non-current investments other than investments in subsidiaries are stated at cost less impairment losses. On disposal of an investment, the difference between net disposal proceeds and its carrying amount is recognised in profit or loss.

# (iii) Marketable securities

Marketable securities are carried at the lower of cost and market value, determined on an aggregate basis. Cost is determined on the weighted average basis while market value is determined based on quoted market values. Increases or decreases in the carrying amount of marketable securities are recognised in the profit or loss. On disposal of marketable securities, the difference between net disposal proceeds and the carrying amount is recognised in profit or loss.

### (iv) Receivables

Receivables are carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on a review of all outstanding amounts as at the balance sheet date.

### (v) Payables

Payables are stated at the fair value of the consideration to be paid in the future for goods and services received.

# (vi) Interest-bearing loans and borrowings

Interest-bearing bank loans and overdraft are recorded at the amount of proceeds received, net of transaction costs.

All borrowing costs are recognised as an expense in profit or loss in the period in which they are incurred.

# (vii) Equity instruments

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

# (f) Leases

A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incidental to ownership.

Assets acquired by way of hire purchase or finance leases are stated at an amount equal to the lower of their fair values and the present value of the minimum lease payments at the inception of the leases, less accumulated depreciation and impairment losses. The corresponding liability is included in the balance sheet as borrowings. In calculating the present value of the minimum lease payments, the discount factor used is the interest rate implicit in the lease, when it is practicable to determine; otherwise, the Company's incremental borrowing rate is used. Any initial direct costs are also added to the carrying amount of such assets.

31 MARCH 2010

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

# 2.2 Summary of Significant Accounting Policies (Cont'd.)

### (f) Leases (Cont'd.)

Lease payments are apportioned between the finance costs and the reduction of the outstanding liability. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised in the profit or loss over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

The depreciation policy for leased assets is in accordance with that for depreciable property, plant and equipment as described in Note 2.2 (b).

# (g) Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

### (h) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the balance sheet date.

Deferred tax is provided for, using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is recognised as income or an expense and included in the profit and loss for the period, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity.

### (i) Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability.

# (j) Employee benefits

# (i) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

# 31 MARCH 2010

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

# 2.2 Summary of Significant Accounting Policies (Cont'd.)

# (j) Employee benefits (Cont'd.)

# (ii) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the profit or loss as incurred. As required by law, the Group makes such contributions to the Employees Provident Fund ("EPF").

# (k) Foreign currencies

# (i) Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency.

# (ii) Foreign currency transactions

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded in the functional currencies using the exchange rate prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are included in profit or loss for the period. Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

# (I) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

# (i) Sale of goods

Revenue is recognised net of sales taxes and discounts upon the transfer of significant risks and rewards of ownership to the buyer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

31 MARCH 2010

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

# 2.2 Summary of Significant Accounting Policies (Cont'd.)

# (I) Revenue recognition (Cont'd.)

### (ii) Revenue from services

Revenue from services rendered is recognised net of service taxes and discounts as and when the services are performed.

### (iii) Interest income

Interest income is recognised on an accrual basis using the effective interest method.

### (iv) Dividend income

Dividend income is recognised when the Group's right to receive payment is established.

### (m) Government grants

TR i - 3

Government grants are recognised initially at their fair value in the balance sheet as deferred income where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Grants that compensate the Group for expenses incurred are recognised as income upon recognition of sale.

# 2.3 Standards and Interpretations issued but not yet effective

At the date of authorisation of these financial statements, the following new FRSs and Interpretations, and Amendments to certain Standards and Interpretations were issued but not yet effective and have not been applied by the Group and the Company, which are:

# Effective for financial periods beginning on or after 1 January 2011:

Amendments to FRS 1 Limited Exemption from Comparative FRS 7

Disclosures for First-time Adopters

Amendments to FRS 7 Improving Disclosures about Financial Instruments

The Group and the Company plan to adopt the above pronouncements when they become effective in the respective financial period. Unless otherwise described below, these pronouncements are expected to have no significant impact to the financial statements of the Group and the Company upon their initial application.

# Pronouncements effective for financial periods beginning on or after 1 July 2009

# FRS 8: Operating Segment

FRS 8 replaces FRS 114<sub>2004</sub>: Segment Reporting and requires a 'management approach', under which segment information is presented on a similar basis to that used for internal reporting purposes. As a result, the Group's external segmental reporting will be based on the internal reporting to the "chief executive decision maker", who makes decisions on the allocation of resources and assesses the performance of the reportable segments. As this is a disclosure standard, there will be no impact on the financial position or results of the Group and of the Company.

# Pronouncements effective for financial periods beginning on or after 1 January 2010

# FRS 101: Presentation of Financial Statements (revised)

The revised FRS 101 separates owner and non-owner changes in equity. Therefore, the consolidated statement of changes in equity will now include only details of transactions with owners. All non-owner changes in equity are presented as a single line labelled as total comprehensive income. The Standard also introduces the statement of comprehensive income: presenting all items of income and expense recognised in the income statement, together with all other items of recognised income and expense, either in one single statement, or in two linked statements. The Group is currently evaluating the format to adopt. In addition, a statement of financial position is required at the beginning of the earliest comparative period following a change in accounting policy, the correction of an error or the reclassification of items in the financial statements. This revised FRS does not have any impact on the financial position and results of the Group and the Company.

31 MARCH 2010

# 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

2.3 Standards and Interpretations issued but not yet effective (cont'd.)

Pronouncements effective for financial periods beginning on or after 1 January 2010 (cont'd.)

# FRS 123: Borrowing Costs

This Standard supersedes FRS 1232004: Borrowing Costs that removes the option of expensing borrowing costs and requires capitalisation of such costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognised as an expense. The Group's current accounting policy is to expense the borrowing costs in the period which they are incurred. In accordance with the transitional provisions of the Standard, the Group will apply the change in accounting policy prospectively for which the commencement date for capitalisation of borrowing cost on qualifying assets is on or after the financial period 1 January 2010.

FRS 139: Financial Instruments: Recognition and Measurement, FRS 7: Financial Instruments: Disclosures and Amendments to FRS 139: Financial Instruments: Recognition and Measurement, FRS 7: Financial Instruments: Disclosures

The new Standard on FRS 139: Financial Instruments: Recognition and Measurement establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items. Requirements for presenting information about financial instruments are in FRS 132: Financial Instruments: Presentation and the requirements for disclosing information about financial instruments are in FRS 7: Financial Instruments: Disclosures.

FRS 7: Financial Instruments: Disclosures is a new Standard that requires new disclosures in relation to financial instruments. The Standard is considered to result in increased disclosures, both quantitative and qualitative of the Group's and Company's exposure to risks, enhanced disclosure regarding components of the Group's and Company's financial position and performance, and possible changes to the way of presenting certain items in the financial statements. In accordance with the respective transitional provisions, the Group and the Company are exempted from disclosing the possible impact to the financial statements upon the initial application.

Amendments to FRS 1: First-time Adoption of Financial Reporting Standards and FRS 127: Consolidated and Separate Financial Statements: Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate

The amendment to FRS 1 allows first-time adopters to use costs, determined in accordance with FRS 127, or deemed cost of either fair value (in accordance with FRS 139) or the carrying amount under previous accounting practice to measure the initial cost of investments in subsidiaries, jointly controlled entities and associates in the separate opening FRS balance sheet. In the amendment to FRS 127, there is no longer a distinction between pre-acquisition and post-acquisition dividends.

The amendment also requires the cost of the investment of a new parent in a group (in a reorganisation meeting certain criteria) to be measured at the carrying amount of its share of equity as shown in the separate financial statements of the previous parent. The amendments also remove the definition of the cost method from FRS 127 and will be applied prospectively that affect only the financial statements of the Company and do not have an impact on the financial statements of the Group.

Amendments to FRSs 'Improvements to FRSs (2009)'

FRS 7 Financial Instruments: Disclosures: Clarifies on the presentation of finance costs whereby interest income is not a component of finance costs.

FRS 8 Operating Segments: Clarifies that segment information with respect to total asset is required only if they are included in measures of segment profit or loss that are used by the 'chief operating decision maker'.

FRS101 Presentation of Financial Statements: Clarifies that financial instruments classified as held for trading in accordance with FRS139 Financial Instruments: Recognition and Measurement are not automatically presented as current in the balance sheet. The amendment further clarifies that the classification of the liability component of a convertible instrument as current or non-current is not affected by the terms that could, at the option of the holder, result in settlement of the liability by the issue of equity instruments.

FRS107 Statement of Cash Flows (formerly known as Cash Flow Statements): Clarifies that only expenditures that result in a recognised asset in the statement of financial position can be classified as investing activities in the statement of cash flows.

FRS 108 Accounting Policies, Changes in Accounting Estimates and Errors: Clarifies that only implementation guidance that is an integral part of an FRS is mandatory when selecting accounting policies.

FRS 110 Events after the Reporting Period (formerly known as Events After the Balance Sheet Date): Clarifies that dividends declared after the end of the reporting period are not liabilities as at the balance sheet date.

FRS 116 Property, Plant and Equipment: The amendment replaces the term "net selling price" with "fair value less costs to sell". It also clarifies that items of property, plant and equipment held for rental that are routinely sold in the ordinary course of business after rental, are transferred to inventory when rental ceases and they are held for sale.

FRS 117 Leases: Clarifies on the classification of leases of land and buildings.

FRS 118 Revenue: The amendment provides additional guidance on whether an entity is acting as a principal or an agent. It also aligns the definition of costs incurred in originating a financial asset that should be deferred and recognised as an adjustment to the effective interest by replacing the term 'direct costs' with 'transaction costs' as defined in FRS 139.

FRS 119 Employee Benefits: The amendment revises the definition of 'past service costs', 'return on plan assets' and 'short term' and 'other long-term' employee benefits. It clarifies that the costs of administering the plan may be either recognised in the rate of return on plan assets or included in the actuarial assumptions used to measure the defined benefit obligation. The amendment further clarifies that amendment to plans that result

in a reduction in benefits related to future services are curtailments. It also deleted the reference to the recognition of contingent liabilities to ensure consistency with FRS 137 Provisions, Contingent Liabilities and Contingent Assets.

FRS 123 Borrowing Costs: The definition of borrowing costs is aligned with FRS 139 by referring to the use of effective interest rate as a component of borrowing cost.

FRS 127 Consolidated and Separate Financial Statements: The amendment clarifies that when a parent entity accounts for a subsidiary at fair value in accordance with FRS 139 in its separate financial statements, this treatment continues when the subsidiary is subsequently classified as held for sale.

FRS 134 Interim Financial Reporting: Clarifies that earnings per share is to be disclosed in interim financial reports if an entity is within the scope of FRS 133: Earnings per Share.

FRS 136 Impairment of Assets: Clarifies that when discounted cash flows are used to estimate 'fair value less cost to sell' additional disclosure is required about the discount rate, consistent with disclosures required when the discounted cash flows are used to estimate 'value in use'. The amendment further clarifies that the largest cash-generating unit for group of units to which goodwill should be allocated for purposes of impairment testing is an operating segment as defined in FRS 8.

FRS 138 Intangible Assets: Clarifies that expenditure on advertising and promotional activities is recognised as an expense when an entity either has the right to access the goods or has received the service. The amendments also provide guidance regarding valuation techniques to measure the fair value of an intangible asset acquired in a business combination when there is no active market for the asset. In addition, the reference to "there being rarely, if ever, persuasive evidence to support an amortisation method of intangible assets other than a straight-line method" has been removed.

FRS 139 Financial Instruments: Recognition and Measurement: Clarifies that changes in circumstances relating to derivatives are not reclassifications and therefore may be either removed from, or included in, the 'fair value through profit or loss' classification after initial recognition. It also clarifies on the scope exemption for business combination contracts. The amendments remove the reference in FRS 139 to a 'segment' when determining whether an instrument qualifies as a hedge and requires the use of the revised effective interest rate when remeasuring a debt instrument on the cessation of fair value hedge accounting. It also provides additional guidance on determining whether loan prepayment penalties result in an embedded derivates that needs to be separated. In addition, the amendments state that the gains or losses on a hedged instrument should be reclassified from equity to profit or loss during the period that the hedged forecast cash flows impact profit or loss.

2.3 Standards and Interpretations issued but not yet effective (cont'd.)

Pronouncements effective for financial periods beginning on or after 1 January 2010 (cont'd.)

#### IC Interpretation 10: Interim Financial Reporting and Impairment

This IC prohibits impairment losses recognised in an interim period on goodwill or investments in equity instruments or financial assets carried at cost to be reversed at a subsequent balance sheet date.

#### IC Interpretation 11: FRS 2 - Group and Treasury Share Transactions

This IC provides guidance on arrangements whereby an employee is granted rights to an entity's equity instruments to be accounted for as an equity-based scheme, even if the entity buys the instruments from another party, or the shareholders provide the equity instruments needed. The IC also addresses how the subsidiaries, in their separate financial instruments, should account for schemes when their employees receive equity instruments of the parent.

#### Pronouncements effective for financial periods beginning on or after 1 July 2010

#### FRS 1: First-time Adoption of Financial Reporting Standards

This FRS supersedes FRS 1 (issued in 2005 and amended in May 2009). The Standard sets out the procedures that an entity must follow when it adopts FRSs for the first time as the basis for preparing its financial statements.

# FRS 3: Business Combinations (revised) and FRS 127: Consolidated and Separate Financial Statements (amended)

FRS 3 (revised) introduces a number of changes to the accounting for business combinations occurring on or after 1 July 2010. These include changes that affect the valuation of non-controlling interest, the accounting for transaction costs, the initial recognition and subsequent measurement of a contingent consideration and business combinations achieved in stages. These changes will impact the amount of goodwill recognised, the reported results in the period that an acquisition occurs and future reported results.

FRS 127 (amended) requires that a change in the ownership interest of a subsidiary (without loss of control) is accounted for as a transaction with owners in their capacity as owners and to be recorded in equity. Therefore, such transaction will no longer give rise to goodwill, nor will it give rise to a gain or loss. Furthermore, the amended Standard changes the accounting for losses incurred by the subsidiary as well as loss of control of a subsidiary.

The changes by FRS 3 (revised) and FRS127 (amended) will be applied prospectively and only affect future acquisition or loss of control of subsidiaries and transactions with non-controlling interests.

#### 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

#### 2.4 Significant accounting estimates and judgements

#### (a) Critical judgements made in applying accounting policies

There were no significant judgements made in applying the Group's accounting policies which may have significant effect on the amounts recognised in the financial statements.

#### (b) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:-

#### Depreciation of plant and machinery

The cost of plant and machinery is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these plant and machinery to be 30 years. These are common life expectancies applied for the assets owned by the Group. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

#### (a) Credit risk

The Group's primary exposure to credit risk arises through its trade receivables. The Group's trading terms with its customers are mainly on credit. The credit period is generally between 7 to 90 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. The Group's trade receivables relate to a large number of diversified customers. There is no significant concentration of credit risk. Trade receivables are non-interest bearing.

#### (ii) Litigation case

A customer, Sidney Marketing Sdn. Bhd. has initiated legal action against a subsidiary of the Company. The plaintiff has made a claim of RM1,000,000 for a breach of a purported agreement to set-up a joint venture business. The court has fixed the matter for case management on 2 August 2010. The directors, upon legal advice, are of the opinion that the claim would not succeed and any decision made would be in favour of the Group.

#### 25. FINANCIAL INSTRUMENTS

#### (a) Financial risk management objectives and policies

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its interest rate risk, foreign currency risk, liquidity risk and credit risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below. It is, and has been throughout the year under review, the Group's policy that no trading in derivative financial instruments shall be undertaken.

#### (b) Interest rate risk

The Group's interest rate risk arises primarily from interest-bearing borrowings. The investments in financial assets are mainly short term in nature and have been mostly placed in fixed deposits or marketable securities.

The following tables set out the carrying amounts, the weighted average effective interest rates (WAEIR) as at the balance sheet date and the remaining maturities of the Group's and Company's financial instruments that are exposed to interest rate risk:

Interest on financial instruments subject to floating interest rates is contractually repriced at intervals of less than 6 months except for term loans which are repriced annually. Interest on financial instruments at fixed rates are fixed until the maturity of the instrument. The other financial instruments of the Group and of the Company that are not included in the above tables are not subject to interest rate risks.

#### (c) Foreign currency risk

The Group operates internationally and is exposed to Singapore Dollars and United States Dollars. Foreign currency denominated assets and liabilities together with expected cash flows from highly probable purchases and sales give rise to foreign exchange exposures.

31 MARCH 2010

#### 25. FINANCIAL INSTRUMENTS (CONT'D.)

#### (c) Foreign currency risk (Cont'd.)

Foreign exchange exposures in transactional currencies other than functional currencies of the operating entities are kept to an acceptable level.

#### (d) Liquidity risk

The Group manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all refinancing, repayment and funding needs are met. As part of its overall prudent liquidity management, the Group maintains sufficient levels of cash to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position.

#### (e) Credit risk

The Group's credit risk is primarily attributable to trade receivables. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis. However, the Group is still exposed to doubtful debts as a result of default in payments by certain debtors. Tighter credit control procedures are being implemented to minimise such exposure. The Group does not offer credit terms without specific approval. Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents, marketable securities and non-current investments, arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these financial assets.

The Group does not have any significant exposure to any individual customer or counterparty nor does it have any major concentration of credit risk related to any financial assets.

#### (f) Fair values

The carrying amounts of financial assets and liabilities of the Group and of the Company at the balance sheet date approximated their fair values except for the following:

<sup>\*</sup> It is not practical to estimate the fair values of the Group's and Company's non-current unquoted shares because of the lack of quoted market prices and the inability to estimate fair value without incurring excessive costs.

The methods and assumptions used by the management to determine fair values of financial instruments other than those whose carrying amounts reasonably approximate their fair values are as follows:

#### (i) Marketable Securities

The fair value of quoted shares is determined by reference to stock exchange quoted market bid prices at the close of the business on the balance sheet date.

#### (ii) Borrowings

The fair value of borrowings is estimated by discounting the expected future cash flows using the current interest rates for liabilities with similar risk profiles.

#### **26. SEGMENT INFORMATION**

No segmental analysis by geographical location or by business segment had been prepared as the operations are principally flour milling and are carried out within Malaysia. The other activities are insignificant to the Group.
