# Notice of Annual General Meeting

NOTICE IS HEREBY GIVEN that the Sixty-First (61st) Annual General Meeting ("AGM") of the Company will be held at Kompleks Pejabat Behrang 2020, Jalan Persekutuan 1, 35900 Tanjung Malim, Perak, Malaysia on Monday, 31 May 2021 at 11.30 a.m. for the following purposes:

#### AGENDA

		ORDINARY
AS O	RDINARY BUSINESS:	<b>RESOLUTION NO.</b>
1.	To receive the Audited Financial Statements for the financial year ended 31 December 2020, together with the Directors' and Auditors' Reports thereon.	Please refer to Note 1
2.	To approve the payment of Directors' benefits payable to Non-Executive Directors up to RM162,000 from 61st AGM until the next AGM of the Company.	1
3.	To re-elect the following Directors retiring in accordance with the Company's Constitution:	
	3.1 Puan Wan Salmah Binti Wan Abdullah	2
	3.2 Mr. Heng Beng Fatt	3
4.	To re-appoint Messrs PKF as Auditors of the Company to hold office until the next AGM and to authorise the Directors to fix their remuneration.	4
	<b>ECIAL BUSINESS</b> , to consider and, if thought fit, with or without any modification, ss the following resolutions:	
5.	RETENTION OF INDEPENDENT NON-EXECUTIVE DIRECTORS UNTIL THE NEXT AGM IN ACCORDANCE WITH THE MALAYSIAN CODE OF CORPORATE GOVERNANCE ("MCCG")	
	5.1 That Mr. Chan Kam Leong who has served as an Independent Non-	5

5.1 That Mr. Chan Kam Leong, who has served as an Independent Non-Executive Director of the Company for a cumulative term of more than twelve (12) years to continue to act as an Independent Non-Executive Director of the Company.

6

7

5.2 That subject to her re-election as a Director of the Company under Ordinary Resolution 2, Puan Wan Salmah Binti Wan Abdullah, who has served as an Independent Non-Executive Director of the Company for a cumulative term of more than nine (9) years to continue to act as an Independent Non-Executive Director of the Company.

### 6. PROPOSED AUTHORITY TO ALLOT AND ISSUE SHARES IN GENERAL PURSUANT TO SECTION 76 OF THE COMPANIES ACT, 2016

"THAT pursuant to Section 76 of the Companies Act, 2016, the Directors be and are hereby empowered to allot and issue shares in the Company at any time and from time to time until the next AGM and upon such terms and conditions and for such purposes as the Directors may, in their absolute discretion, deem fit provided the aggregate number of shares to be issued does not exceed ten per centum (10%) of the total number of issued shares of the Company at the time of issue, subject always to the Constitution of the Company and approval for the listing of and quotation for the additional Shares so issued on the Bursa Malaysia Securities Berhad ("Bursa Securities") and other relevant bodies where such approval is necessary."

Notice of Annual General Meeting (cont'd)

7. To transact any other business of which due notice shall have been given in accordance with the Companies Act, 2016.

**FURTHER NOTICE IS HEREBY GIVEN THAT** only members whose names appear on the Record of Depositors as at 21 May 2021 shall be entitled to attend the AGM or appoint proxies in his/her stead or in the case of a corporation, a duly authorised representative to attend and to vote in his/her stead.

By Order of the Board

#### **CHAN EOI LENG**

(SSM PC No. 202008003055) (MAICSA 7030866)

**Chartered Secretary** 

Ipoh, Perak Darul Ridzuan, Malaysia 30 April 2021

#### Notes:

#### 1. PROXY

A member, other than an exempt authorised nominee is entitled to appoint one (1) or two (2) proxies to attend and vote instead of him/her. A proxy must be 18 years and above and need not be a member of the Company.

Annual Report 2020

Where a member appoints two (2) proxies, the appointments shall be invalid unless he/she specifies the proportions of his/her holdings to be represented by each proxy.

Where a member of the Company is an Exempt Authorised Nominee which holds ordinary shares in the Company in an Omnibus Account, there is no limit to the number of proxies which the Exempt Authorised Nominee may appoint in respect of each Omnibus Account it holds but the proportion of holdings to be represented by each proxy must be specified.

The instrument appointing a proxy shall be in writing under the hand of the appointer or his/her attorney duly authorised in writing or if the appointer is a corporation, either under the corporation's seal or under the hand of an officer or attorney duly authorised. If under the hand of attorney/authorised officer, the Power of Attorney or Letter of Authorisation must be attached.

The instrument appointing a proxy must be deposited at the Share Registrar's office of the Company, Boardroom Share Registrars Sdn. Bhd. at 11th Floor, Menara Symphony, No. 5, Jalan Professor Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor, Malaysia not less than 48 hours before the time appointed for holding the Meeting or adjourned Meeting either by hand, post, courier or electronic mail to bsr.helpdesk@boardroomlimited.com or fax (603)78904670 before the Form of Proxy lodgement cut-off time as mentioned above, otherwise the instrument of proxy should not be treated as valid.

For verification purposes, members and proxies are required to produce their original identity card at the registration counter. No person will be allowed to register on behalf of another person even with the original identity card of that other person.

#### 2. AUDITED FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020

Agenda 1 is meant for discussion only as Section 340(1)(a) of the Companies Act, 2016 only requires the Audited Financial Statements to be laid before the Company at the AGM and do not require shareholders' approval. Hence, this Agenda is not put forward for voting.

Notice of Annual General Meeting (cont'd)

#### Notes: (cont'd)

#### 3. DIRECTORS' BENEFITS TO NON-EXECUTIVE DIRECTORS

Section 230(1) of the Companies Act, 2016 provides amongst others, that "fees" of the Directors and "any benefits" payable to Directors of a listed company and its subsidiaries shall be approved at a general meeting. Pursuant thereto, shareholders' approval is sought for this payment in Ordinary Resolution 1 for Payment of Directors' benefits to Non-Executive Directors from 61st AGM until the next AGM of the Company.

The Directors' benefits payable to the Non-Executive Directors from 61st AGM until the next AGM of the Company are calculated based on the current composition of the Board and Board Committees and the number of meetings scheduled for the Board and Board Committees.

#### 4. RETENTION OF INDEPENDENT NON-EXECUTIVE DIRECTORS

Practice 4.2 of the MCCG provides that shareholders' approval be sought in the event that the Company intends for an Independent Director who has served in the capacity for more than nine (9) years, to continue to act as Independent Director of the Company.

The Board is recommending to the shareholders for Mr. Chan Kam Leong and Puan Wan Salmah Binti Wan Abdullah who have served as Independent Non-Executive Directors of the Company for a cumulative term of more than twelve (12) years and eleven (11) years respectively to continue to act as Independent Non-Executive Directors of the Company.

The Board through the Nomination Committee had assessed and endorsed that Mr. Chan Kam Leong and Puan Wan Salmah Binti Wan Abdullah be retained as Independent Non-Executive Directors of the Company as they have continued to display high level of integrity and are objective in their judgement and decision-making in the best interest of the Company, shareholders and stakeholders and are able to express unbiased views without any influence. The detailed justifications are as set out in the Corporate Governance Overview Statement.

Pursuant to the MCCG, the Company would use two-tier voting process in seeking shareholders' approval to retain Mr. Chan Kam Leong.

# 5. PROPOSED AUTHORITY TO ALLOT AND ISSUE SHARES IN GENERAL PURSUANT TO SECTION 76 OF THE COMPANIES ACT, 2016

The Company had, during its Sixtieth (60th) AGM held on 23 July 2020, obtained its shareholders' approval for the general mandate for issuance of shares pursuant to Section 76 of the Act. As at the date of this notice, the Company did not issue any shares pursuant to this mandate obtained.

The proposed Ordinary Resolution 7 is a renewal of the general mandate for issuance of shares by the Company under Section 76 of the Companies Act, 2016. The mandate, if passed, will empower the Directors from the date of the above AGM until the next AGM, to allot and issue up to a maximum of 10% of the total number of issued shares of the Company at the time of issue (other than bonus or rights issue) for such purposes as they consider would be in the best interest of the Company. This would eliminate any delay arising from and cost involved in convening a general meeting to obtain approval of the shareholders for such issuance of shares. This authority will unless revoked or varied by the Company at a general meeting, will expire at the next AGM of the Company.

This authority will provide flexibility to the Company for any possible fund raising activities, including but not limited to further placing of shares for purpose of funding investment project(s), working capital and/or acquisition. At this juncture, there is no decision to issue new shares. If there should be a decision to issue new shares after the general mandate is sought, the Company will make an announcement in respect thereof.

# **Corporate Structure**

Annual Report 2020

# **Profile of Directors**

#### Dato' Seri Mah King Seng Executive Chairman Aged 62, Male, Malaysian

- Dato' Seri Mah King Seng joined the Board of Directors on 20 September 1978. He was appointed as an Executive Chairman on 13 July 2005.
- He is also a member of the Executive Committee and the Committee for the review of press releases or public announcements.
- He joined the Company in 1978 after graduating from the University of Minnesota, United States of America with a degree in Agricultural Science and has been with the Group since then, garnering more than twenty years' experience in managing the operations of the Group's estates, mills and hotel. In 1980, he attended the Palm Oil Mill Engineer/Executive Training course on palm oil mill operations organised by the Malaysian Oil Palm Growers Council. He subsequently obtained his Bachelor of Law Degree in 1985 from the University of Buckingham, United Kingdom and was admitted and enrolled as an Advocate and Solicitor of the High Court of Malaya in 1990.
- He is a Director of Behrang 2020 Sdn. Bhd. and several other private limited companies. He is also the Managing Director of Cepatwawasan Group Berhad, a company listed on the Main Market of Bursa Securities. He is also the Managing Director of Timah Resources Limited, an Australian incorporated company listed on the Australian Securities Exchange.
- He is a son of Datin Seri Ooi Ah Thin who is a Director and substantial shareholder of Dato Mah Pooi Soo Realty Sdn. Bhd. ("DMR"), a major shareholder of the Company, and the elder brother of Tan Sri Dr Mah King Thian, the Managing Director of the Company, who is also a Director and substantial shareholder of DMR.
- Dato' Seri Mah King Seng is also a Director and substantial shareholder of DMR. He is deemed interested in certain recurrent related party transactions carried out in the ordinary course of business between the Company and its Group with the DMR group and certain privately owned companies.
- He attended all the Board Meetings held during the financial year.

#### Tan Sri Dr. Mah King Thian Managing Director Aged 57, Male, Malaysian

- Tan Sri Dr. Mah King Thian joined the Board of Directors on 28 December 1992. He is currently the Managing Director responsible for the Group's operations, corporate and legal affairs, accounting and finance.
- He is also a member of the Executive Committee, the Chairman of the Remuneration Committee and the Committee for the review of press releases or public announcements.
- He graduated from Monash University, Australia with a Bachelor of Economics Degree majoring in Accounting in 1986 and also a Bachelor of Laws Degree in 1987. He was subsequently admitted and enrolled as an Advocate and Solicitor of the High Court of Malaya in 1989, and he then joined the Company in the same year. He is also a Fellow Member of Certified Practising Accountant Australia (FCPA).
- In 2018, Tan Sri Dr. Mah King Thian successfully completed his postgraduate study on oil palm renewable energy businesses and was conferred the degree of Doctor of Philosophy (PhD) by the Liverpool Business School in the United Kingdom.
- He is a Director of Behrang 2020 Sdn. Bhd. and several other private limited companies. He is also the Executive Chairman of Cepatwawasan Group Berhad, a company listed on the Main Market of Bursa Securities. He is also the Executive Chairman of Timah Resources Limited, an Australian incorporated company listed on the Australian Securities Exchange.
- He is a son of Datin Seri Ooi Ah Thin who is a Director and substantial shareholder of Dato Mah Pooi Soo Realty Sdn. Bhd. ("DMR"), a major shareholder of the Company, and the younger brother of Dato' Seri Mah King Seng, the Executive Chairman of the Company, who is also a Director and substantial shareholder of DMR.
- Tan Sri Dr. Mah King Thian, is also a Director and substantial shareholder of DMR. He is deemed interested in certain recurrent related party transactions carried out in the ordinary course of business between the Company and its Group with the DMR group and certain privately owned companies.
- He attended all the Board Meetings held during the financial year.

Profile of Directors (cont'd)

#### Mr. Chan Kam Leong Independent Non-Executive Director Aged 80, Male, Malaysian

- Mr. Chan Kam Leong was appointed to the Board on 21 October 2008 and is currently an Independent Non-Executive Director of the Company.
- He is the Chairman of the Audit Committee and Nominating Committee. He is also a member of the Remuneration Committee of the Company.
- He holds the qualifications of Bachelor of Science (Eng), Master of Science (Construction Management), Professional Engineer, Malaysia as well as Chartered Engineer, United Kingdom (UK). He is also members of The Institution of Civil Engineers, UK, The Institution of Structural Engineers, UK, The Institution of Engineers, Malaysia (IEM) and The Association of Consulting Engineers, Malaysia.
- He had worked three years each in Kuala Lumpur and Singapore and three and a half years in London before founding K.L. Chan & Associates, of which he is still a partner. He has more than forty-five years of experience in civil and structural engineering consultancy. He was also the winner of the TAN SRI HJ. YUSOFF PRIZE in 2007 for publishing an outstanding paper in the IEM Journal.
- He is a Director of Cepatwawasan Group Berhad, a company listed on the Main Market of Bursa Securities.
- He does not have any family relationship with any other Director and/or major shareholder of the Company and has no conflict of interest with the Company.
- He attended all the Board Meetings held during the financial year.

#### Puan Wan Salmah Binti Wan Abdullah Independent Non-Executive Director Aged 67, Female, Malaysian

- Puan Wan Salmah Binti Wan Abdullah was appointed to the Board on 10 July 2009 as an Independent Non-Executive Director of the Company.
- She is also a member of the Audit Committee, Nominating Committee and Remuneration Committee of the Company.
- She graduated from University Sains Malaysia with a Bachelor of Social Science (Hons). She has more than 20 years' experience in property development and land related matters. She began her career working with Perbadanan Kemajuan Negeri Perak (PKNP) as a Project Officer and was promoted to Director of Land and Property and Director of Land and Industrial Estate Development in 1995. She was also appointed as a Director of some of the subsidiaries of PKNP. She had previously served as a Director of Majuperak Holdings Berhad from 1995 to June 2008.
- She does not have any family relationship with any other Director and/or major shareholder of the Company and has no conflict of interest with the Company.
- She attended all the Board Meetings held during the financial year.

Profile of Directors (cont'd)

#### **Mr. Heng Beng Fatt** Independent Non-Executive Director Aged 57, Male, Malaysian

- Mr. Heng Beng Fatt was appointed to the Board on 23 July 2010 as a Non-Independent Non-Executive Director of the Company. On 10 August 2017, he was re-designated as Independent Non-Executive Director.
- He is also a member of the Audit Committee and Nominating Committee of the Company.
- He holds the qualification of Master of Business Administration, University of Bath and is a member of the Malaysian Institute of Accountants.
- He has vast experience in accounting, finance, administration, business development and corporate affairs, having served in various capacities during his tenure with Golden Screen Cinemas Sdn. Bhd. ("GSC") namely as Human Resources and Admin Manager (1998-2000), Business Development Manager (1997-1998), Finance and Admin Manager (1995-1997) and Accountant (1993-1995). He also served as an Accountant at Avery Malaysia (1992-1993) and Ernst & Young (1988-1992). Currently, he is the Chief Operating Officer, Malaysia for GSC.
- He also serves on the Board of Enterprise Advance System Intelligence Sdn. Bhd. and as a committee member for the Malaysian Association of Film Exhibitors.
- He does not have any family relationship with any other Director and/or major shareholder of the Company and has no conflict of interest with the Company.
- He attended all the Board Meetings held during the financial year.

#### **Ms. Mah Li-Na** Alternate Director to Dato' Seri Mah King Seng Aged 31, Female, Malaysian

- Ms. Mah Li-Na was appointed to the Board on 7 March 2018 as an Alternate Director to Dato' Seri Mah King Seng.
- She initially graduated from the University of Melbourne, Australia with a Bachelor of Commerce, majoring in Accounting and Finance in 2010. Thereafter, she joined the Chinese Language Programme in Tsinghua University, Beijing, China to enhance her fluency in Mandarin.
- She went on to pursue her second degree, Bachelor of Laws with the University of London and completed with a Second Upper Class Honours in 2016.
- She has previously interned with KPMG Malaysia, Forensics Accounting Department in 2009, then proceeded to join the company as an Associate in 2012. - He has not been convicted of any offence within the past five (5) years and there were no public sanctions or penalties imposed by the relevant regulatory bodies during the financial year ended 31 December 2020.

# **Chairman's Statement**

On behalf of the Board of Directors ("Board") of MHC Plantations Bhd., I am pleased to present to you the Annual Report of the Group and the Company for the financial year ended 31 December 2020.

#### **Group Performance**

The Group recorded a revenue of RM354.74 million and a profit before tax of RM31.20 million for the financial year ended 31 December 2020 ("FY2020"). This was a significant increase compared to the revenue and profit of RM308.00 million and RM9.40 million respectively for the financial year ended 31 December 2019 ("FY2019").

The increases in revenue and profit before tax were mainly due to:

- a) Increases in selling prices of crude palm oil ("CPO"), palm kernel ("PK" or "Kernel") and fresh fruit bunches ("FFB") by 31%, 30% and 32% respectively; and
- b) Increase in segment contribution by Power Plant as a result of higher sales and higher average selling price of empty fruit bunches ("EFB") oil by 11% and 62% respectively.

The highlights of the Group performance are stated below:

Average selling price per tonne:-

	FY2020 RM	FY2019 RM	Difference (%)	
СРО	2,712	2,071	31%	<
Kernel FFB	1,597 494	1,231 374	30% 32%	

#### Production:-

	FY2020 MT	FY2019 MT	Difference (%)
СРО	87,349	104,000	-16%
Kernel	22,966	26,883	-15%
FFB	149,702	161,181	-7%

#### Extraction rate:-

	FY2020	FY2019	Difference
	(%)	(%)	(%)
СРО	19.50	19.57	0%
Kernel	5.13	5.06	1%
	FY2020	FY2019	Difference
	MWh	MWh	(%)
Electricity Export	69,474	71,285	-3%

# Chairman's Statement (cont'd)

### Dividend

On 7 April 2021, the Board approved a single-tier interim dividend of 2.0 sen per ordinary share for the financial year ending 31 December 2021.

Furthermore, I am pleased to announce that the Board has approved a one-off payment of an additional special dividend of 2.0 sen per ordinary share for the financial year ending 31 December 2021.

The rationale for the payment of a special dividend was:

- 1. To reward our loyal shareholders for keeping faith in MHC Plantations Bhd despite the uncertain economic situation; and
- 2. To hopefully help in mitigating any difficulties our shareholders might currently be facing as a result of the economic turmoil caused by COVID-19.

#### COVID-19

As is the case with other businesses, the Covid-19 global pandemic has presented significant challenges to our operations. Despite this, I am pleased to inform you that we have adapted well to the difficulties faced and thus continue to remain viable.

Since 18 March 2020, the Malaysian Government has imposed different stages of Movement Control Order ("MCO") as a means of curbing the spread of the virus in the country. Inevitably, the MCO has intermittently disrupted our operations during the year. With strict Standard Operating Procedures in place, we have been able to maintain negligible Covid-19 positive cases amongst our workforce. We recognise the serious threat and danger that the virus poses and we strive to keep our employees safe at all times.

As part of our COVID-19 relief efforts, the Group contributed a total sum of RM120,000.00 towards the purchase of personal protective equipment ("PPE") and essential medical supplies for the healthcare workers of Tanjong Malim and Teluk Intan.

#### **Prospect and Outlook**

The Group expects CPO prices to remain firm in 2021 in view of supply tightness on a low inventory level and the expected recovery in export demand.

The international travel restriction that was implemented as part of COVID-19 measures has led to a shortage of foreign labour in the Malaysian palm oil industry. The Group is working to overcome this issue and will also continue to focus on the maturity profile of its oil palm trees. For the past few years, we have undertaken an accelerated replanting programme to accomplish this aim.

On the whole, the Board is confident that, barring any unforeseen circumstances, the Group will continue to perform satisfactorily for the financial year 2021.

### Acknowledgement

I wish to thank the Management and Staff for their dedicated services and contributions during the year.

To all our valued suppliers, customers, bankers, business associates and advisers, thank you very much for your commitment and assistance to the Group.

And finally, to all our highly valued shareholders, please accept my heartfelt thanks for your unwavering and continuous support.

# Penyataan Pengerusi

Bagi pihak Lembaga Pengarah MHC Plantations Bhd., saya dengan sukacitanya menyampaikan Laporan Tahunan Kumpulan dan Syarikat bagi tahun kewangan berakhir 31 Disember 2020.

#### Prestasi Kumpulan

Kumpulan mencatatkan pendapatan sebanyak RM354.74 juta serta keuntungan sebelum cukai sebanyak RM31.20 juta bagi tahun kewangan berakhir 31 Disember 2020 ("TK2020"). Ini adalah satu peningkatan yang ketara berbanding dengan pendapatan dan keuntungan sebelum cukai masing-masing sebanyak RM308.00 juta dan RM9.40 juta bagi tahun kewangan berakhir 31 Disember 2019 ("TK2019").

Pendapatan dan keuntungan sebelum cukai masing-masing telah meningkat disebabkan terutamanya oleh kenaikan dalam:

- a) Harga Minyak Sawit Mentah ("CPO"), Kernel ("PK") dan Buah Tandan Segar ("FFB") masing-masing sebanyak 31%, 30% dan 32%; dan
- b) Peningkatan sumbangan oleh bahagian logi janakuasa daripada kenaikan jualan dan harga purata jualan Minyak Tandan Buah Kosong ("EFB") yang lebih tinggi masing-masing sebanyak 11% dan 62%.

Sorotan penting prestasi Kumpulan Syarikat adalah seperti berikut:

Harga purata jualan per tan metrik:-

	TK2020 RM	TK2019 RM	Perbezaan (%)	
СРО	2,712	2,071	31%	
CPO Kernel	1,597	1,231	30%	
FFB	494	374	32%	

#### Pengeluaran:-

	ТК2020 МТ	ТК2019 МТ	Perbezaan (%)	
СРО	87,349	104,000	-16%	
Kernel FFB	22,966 149.702	26,883 161,181	-15% -7%	

#### Kadar Pengekstrakan:-

	TK2020 %	TK2019 %	Perbezaan (%)	
CPO Kernel	19.50 5.13	19.57 5.06	0% 1%	
	TK2020 MWh	TK2019 MWh	Perbezaan (%)	
Eksport Elektrik	69,474	71,285	-3%	

Penyataan Pengerusi (samb)

#### Dividen

Pada 7 April 2021, Lembaga Pengarah telah meluluskan dividen interim pertama sebanyak 2.0 sen sesaham untuk tahun kewangan berakhir 31 Disember 2021.

Selain itu, saya dengan sukacitanya mengumumkan bahawa Lembaga Pengarah telah meluluskan pembayaran sekali sahaja dividen tambahan sebanyak 2.0 sen sesaham untuk tahun kewangan berakhir 31 Disember 2021.

Bayaran khas ini dibuat atas 2 sebab:

- 1. Sebagai penghargaan kepada pemegang-pemegang saham setia kami kerana terus mempercayai MHC Plantations Bhd dalam keadaan ekonomi yang tidak menentu; dan
- 2. Diharap dapat meringankan sebarang kesulitan semasa yang dihadapi oleh pemegang-pemegang saham kami dalam kemerosotan ekonomi yang disebakan oleh COVID-19.

#### COVID-19

Seperti halnya perniagaan lain, pandemi global Covid-19 telah memberikan cabaran yang besar bagi operasi kami. Walaupun begitu, saya dengan senang hati memberitahu bahawa kami telah menyesuaikan diri dengan kesukaran yang dihadapi dan dengan demikian terus kekal berdaya maju.

Sejak 18 Mac 2020, Kerajaan Malaysia telah mengenakan berbagai tahap Perintah Kawalan Pergerakan ("PKP") sebagai langkah untuk mengawal penyebaran virus tersebut di negara ini. Memang tidak dapat dielak, PKP telah mengganggu operasi kami dari masa ke semasa pada tahun ini. Dengan Prosedur Operasi Standard yang ketat, bilangan kes positif Covid-19 dikalangan pekerja kita telah dapat dikekalkan ditahap yang kecil. Kami menyedari ancaman dan bahaya serius yang ditimbulkan oleh virus ini dan kami berusaha untuk menjaga keselamatan pekerja kami setiap saat.

Sebagai sebahagian dari usaha bantuan COVID-19 kita, Kumpulan telah menderma sejumlah RM120,000 untuk pembelian peralatan pelindung diri ("PPE") serta bekalan perubatan penting untuk pekerja-pekerja kesihatan di Tanjong Malim dan Teluk Intan.

#### Prospek dan Pandangan

Kumpulan menjangkakan harga CPO akan tetap kukuh pada tahun 2021 memandangkan kesempitan penawaran pada tahap inventori yang rendah dan jangkaan pemulihan permintaan eksport.

Sekatan perjalanan antarabangsa yang dilaksanakan sebagai langkah-langkah kawalan COVID-19 telah menyebabkan kekurangan tenaga kerja asing dalam industri minyak sawit Malaysia. Kumpulan sedang berusaha mengatasi masalah ini dan akan terus memberi tumpuan kepada profil kematangan pokok-pokok sawitnya. Untuk beberapa tahun kebelakangan ini, kami telah menjalankan program penanaman semula yang dipercepatkan untuk mencapai matlamat ini.

Secara keseluruhannya, Lembaga yakin bahawa, melainkan sebarang keadaan yang tidak dijangka, Kumpulan akan terus menunjukkan prestasi yang memuaskan untuk tahun kewangan 2021.

#### Penghargaan

Saya ingin mengambil kesempatan ini untuk merakamkan ribuan terima kasih yang tidak terhingga kepada pihak pengurusan dan semua kakitangan atas khidmat dan dedikasi mereka sepanjang tahun 2020.

Terima kasih juga kepada semua pembekal dan pelanggan, rakan perniagaan, penasihat dan pihak bank atas komitmen dan bantuan yang telah diberikan.

Sebagai akhir kata, kepada semua pemegang saham yang dihargai, terima kasih yang tidak terhingga saya ucapkan di atas sokongan anda semua. Saya berharap semoga anda semua akan dirahmati dengan kejayaan dan kemakmuran di masa hadapan.

# **Management's Discussion and Analysis**

### **DESCRIPTION OF OUR GROUP'S BUSINESS**

MHC Plantations Bhd. ("MHC") was incorporated on 31 December 1960 (hereinafter MHC and its subsidiaries are collectively referred to as the "Group").

The principal activities of the Company consist of cultivation of oil palm, investment holding and the operation of a hotel. The principal activities of the subsidiary companies consist of cultivation of oil palm, operation of quarry, milling and sales of oil palm products including crude palm oil ("CPO") and palm kernel ("Kernel"), letting of oil palm fresh fruit bunches ("FFB") collection center, investment holding, power generation, and property development.

As at 31 December 2020, the Group has a landbank of about 25,500 acres in Sabah and 7,600 acres in Peninsular Malaysia. The Group owns one oil mill in Sabah and one in Peninsular Malaysia, with a total milling capacity of 135 metric tonnes per hour. In addition, the Group has ventured into oil palm renewable energy by investing in and operating a 12 Megawatt Biomass Power Plant ("Biomass Plant") and a 4.0 Megawatt Biogas Power Plant ("Biogas Plant"), both in Sandakan, Sabah. The Group has also upgraded its existing Biogas Power Plant in Teluk Intan to connect it to the grid to export renewable power up to 1 MW to Tenaga Nasional Berhad starting on 8 August 2019 at a Feed-in Tariff ("FiT") rate of RM0.4669/kWh.

#### **FINANCIAL REVIEW**

#### **Revenue and Profit Before Taxation**

The Group recorded a revenue of RM354.74 million and a profit before tax of RM31.20 million for the financial year ended 31 December 2020 ("FY2020"). This was a significant increase compared to the revenue and profit of RM308.00 million and RM9.40 million respectively for the financial year ended 31 December 2019 ("FY2019").

The increases in revenue and profit before tax were mainly due to:

- a) Increases in selling prices of CPO, PK and FFB by 31%, 30% and 32% respectively; and
- b) Increase in segment contribution by Power Plant as a result of higher sales and higher average selling price of EFB oil by 11% and 62% respectively.

Average selling price per metric tonne ("MT"):-

	FY2020	FY2019	Difference
	RM	RM	(%)
CPO	2,712	2,071	31%
Kernel	1,597	1,231	30%
FFB	494	374	32%
Electricity/kWh	0.3901	0.3700	5%
EFB Oil	2,306	1,423	62%

Sales Volume:-

	FY2020	FY2019	Difference (%)
CPO (MT)	87,753	106,116	-17%
Kernel (MT)	23,098	26,922	-14%
FFB (MT)	65,339	43,191	51%
Electricity (MWh)	69,474	71,285	-3%
EFB Oil (MT)	8,069	7,238	11%

#### FINANCIAL REVIEW (cont'd)

#### Revenue and Profit Before Taxation (cont'd)

Performance of the respective operating business segments as compared to the previous financial year is appended and analysed as follows:

- (i) Plantation The increase in Segment profit by RM14.69 million (>100%) from RM5.69 million to RM20.38 million was mainly due to an increase in average FFB selling price by 32% despite a decrease in FFB production by 7%.
- (ii) Oil Mill The decrease in Segment profit by RM0.45 million (4%) from RM11.13 million to RM10.68 million was mainly due to a lower mill OER margin and lower FFB processed during the financial year.
- (iii) Power Plant The increase in Segment profit by RM7.04 million (80%) from RM8.81 million to RM15.85 million was mainly due to higher sales and higher average selling price of EFB oil by 11% and 62% respectively.

#### Other Income

Other income decreased by 15% from RM4.71 million to RM4.02 million mainly due to a decrease in fair value gain on biological assets by RM0.83 million.

### Finance Cost

Finance cost decreased by 32% from RM7.05 million to RM4.81 million in line with the decreases in bank borrowings and interest rate.

#### Taxation

The effective tax rate for the financial year 2020 was higher than the statutory tax rate of 24% principally because certain deferred tax assets were not recognised on business loss for the current year and certain expenses were disallowed for tax purposes.

# Profit Attributable to Equity Holders of the Company

Profit attributable to equity holders of the Company and earnings per share of the Group increased by 445% year-on-year to RM13.67 million and 6.96 sen respectively.

#### **Cash Flow**

In FY2020, the Group generated higher net cash from operating activities of RM53.15 million as compared to RM40.44 million in the previous financial year.

The net cash used in investing activities amounted to RM15.06 million in FY2020, primarily relating to the Group's capital expenditure requirements.

The net cash used in financing activities in FY2020 amounted to RM27.82 million, primarily relating to the repayment of bank borrowings and payment of final dividend to shareholders.

Overall, the Group registered an increase in cash and cash equivalents of RM10.27 million during the year, bringing total cash and cash equivalents to RM27.99 million as at 31 December 2020.

#### **OPERATIONAL REVIEW**

#### **Plantation Operations**

As at 31 December 2020, the Group's total plantation land stands at approximately 13,400 hectares, of which 84% or 11,256 hectares are planted with oil palms. From the total planted area, approximately 83% or 9,372 hectares are mature, while the remaining 17% or 1,884 hectares are immature. The Group recorded a total FFB production of 149,702 MT (2019 – 161,181 MT). The average yield per hectare for the year under review was lower at 16.02 MT/hectare as compared to 18.14 MT/hectare in 2019. The decrease in yield per hectare for the year under review was mainly due to the reduced yield patterns in the Sabah region and acute labour shortages, as well as restrictions in FFB harvesting activities during COVID-19 lockdown which resulted in some crop losses. The Group expects the yield to improve in the coming years with the 2,100 hectares of young mature palm going into prime age.

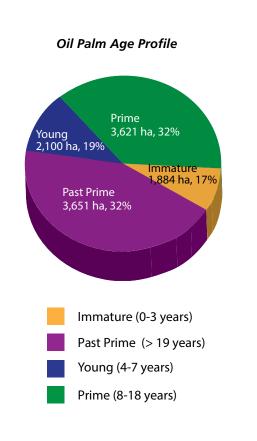

For productivity improvement, the Group will continue to enhance human capital development by providing comprehensive training to employees, and mechanisation of key processes in the estates, including harvesting, in-field collection and crop evacuation.

Particulars	Hectare	%
0 – 3 years (Immature)	1,884	17
4 – 7 years (Young)	2,100	19
8 – 18 years (Prime)	3,621	32
> 19 years (Past Prime)	3,651	32
Total	11,256	100

The age profile of the developed area is shown below:

# **Milling Operations**

The Group operates one oil mill in Sabah and one in Peninsular Malaysia, with a total milling capacity of 135 MT per hour. During the year under review, the Group's mills processed a total FFB quantity of 0.45 million MT as compared to 0.53 million MT in the previous financial year. The decrease in FFB processed by 15% was mainly due to poorer FFB production in the Sandakan region and a substantial volume of the internal FFB from the Sugut region being diverted to a nearby external mill that offered a higher profit margin as a result of saving on transport and higher FFB buying price. Hence, total CPO produced by the mills during the year under review was 87,349 MT, representing a decrease of 16% as compared to 104,000 MT in the previous financial year. Similarly, total kernel production decreased by 15% at 22,966 MT (2019 : 26,883 MT).

The Group's oil extraction rate ("OER") slightly decreased to 19.50% in 2020 as compared to 19.57% in 2019, while kernel extraction rate ("KER") increased to 5.13% in 2020 from 5.06% in 2019.

The Group constantly adopts good milling practices with the aim towards improving the OER, KER, and productivity and efficiency.

#### **OPERATIONAL REVIEW** (cont'd)

#### **Power Plant Operations**

The Group operates a renewable energy division consisting of a 12 Megawatt Biomass Plant and a 4.0 Megawatt Biogas Plant, both in Sandakan and a 2.4 Megawatt Biogas Power Plant in Teluk Intan.

The 12 Megawatt Biomass Plant generates renewable electricity using oil palm Empty Fruit Bunches ("EFB") as primary fuel with oil palm shells and mesocarp fibres as secondary fuels. The Group obtained the FiT Approval from the Sustainable Energy Development Authority Malaysia ("SEDA") on 12 May 2014 to sell renewable electricity to Sabah Electricity Sdn. Bhd. ("SESB") at the FiT rate of RM0.3486/kWh for 16 years commencing from 1 January 2015.

The two Biogas Plants generate renewable electricity by capturing the methane gas from palm oil mill effluent ("POME"), thereby mitigating the emission of greenhouse gases. There is also Zero discharge to the river, as the final discharge from the biogas plant is released through a system of drip irrigation for land application. On 18 February 2015, the Group obtained the FiT Approval from SEDA for the 4.0 Megawatt Biogas Plant to sell renewable electricity to SESB for 16 years commencing from 15 February 2017. The Group has also obtained the FiT Approval from SEDA on 5 May 2017 for the 2.4 Megawatt Biogas Plant in Teluk Intan to sell renewable electricity up to 1MW to Tenaga Nasional Berhad ("TNB") at the FiT rate of RM0.4669/kWh for 16 years commencing from 3 July 2019.

The Group recognises that fuel and system stability are the two main success factors for a renewable energy power plant. The Group has adopted a strict fuel policy to control the quantity and quality of its fuel. Several system upgrading and modification works have been carried out on our power plants to improve the efficiency and stability of power production.

The introduction of different stages of Covid-19 Movement Control Order ("MCO") by the Government during the year has the following impact on the Power Plant Segment:-

- 1) Lower processing activity of our oil mill during the MCO period has reduced the supply of feedstock for our Biogas Power Plant in Sandakan; and
- 2) Late delivery of essential spare parts and provision of engineering support during the MCO period has significantly delayed some of the maintenance and repair of our Biomass and Biogas Plants in Sandakan.

Due to these factors, the Group's power plants generated and exported 69,474 MWh during the yaer under review, representing a decrease of 3% as compared to 71,285 MWh in the previous financial year.

#### COVID-19

As is the case with other businesses, the Covid-19 global pandemic has presented significant challenges to our operations. Despite this, our Group has adapted well to the difficulties faced and thus continue to remain viable.

Since 18 March 2020, the Malaysian Government has imposed different stages of Movement Control Order ("MCO") as a means of curbing the spread of the virus in the country. Inevitably, the MCO has intermittently disrupted our operations during the year. With strict Standard Operating Procedures in place, we have been able to maintain negligible Covid-19 positive cases amongst our workforce. We recognise the serious threat and danger that the virus poses and we strive to keep our employees safe at all times.

#### **OPERATIONAL REVIEW** (cont'd)

#### PROSPECT

The Group expects CPO prices to remain firm in 2021 in view of supply tightness on a low inventory level and the expected recovery in export demand.

The international travel restriction that was implemented as part of COVID-19 measures has led to a shortage of foreign labour in the Malaysian palm oil industry. The Group is working to overcome this issue and will also continue to focus on the maturity profile of its oil palm trees. For the past few years, we have undertaken an accelerated replanting programme to accomplish this aim.

On the whole, the Board is confident that, barring any unforeseen circumstances, the Group will continue to perform satisfactorily for the financial year 2021.

# **Sustainability Statement**

# ABOUT THIS STATEMENT

We are pleased to present the Group Sustainability Statement for the year 2020. It has been prepared in accordance with Bursa Malaysia Securities Berhad's Sustainability Reporting Guidelines (2nd edition).

The period covered is the 12 months ended 31 December 2020, and where applicable, historical data from the preceding year has been included for comparison.

The scope of this report covers the environmental, social and economic performances of the Group's operations in Malaysia.

The Group recognises the value of Sustainability and understand its importance in generating and sustaining short and long term value for the Group and its stakeholders.

Our commitment to Sustainability encompasses on-going efforts to maintain a healthy balance between economic, social and environmental responsibilities, and also includes interests towards our stakeholders for a better future.

# SUSTAINABILITY GOVERNANCE STRUCTURE

The Chief Operating Officer ("COO") is primarily responsible for providing overall direction, leading strategic decision-making and driving execution for all of the Group's sustainability related matters. The Board of Directors, entrusted with oversight of the Group's sustainability practices, is kept informed and regularly updated on the progress of sustainability matters and any issues arising therefrom.

Committee	Responsibilities
Board of Directors	Approve and monitor the development of Management's corporate sustainability strategies, policies and performance
Chief Operating Officer	<ul> <li>Responsible for providing overall direction, leading strategic decision- making and driving execution for all of the Group's sustainability related matters.</li> </ul>
Sustainability Committee	• Lead the implementation of sustainability strategies and policies within their respective departments;
	<ul> <li>Monitor and provide regular updates to the GGM regarding their department's sustainability performance, based on the strategic direction set out by the Board;</li> </ul>
	<ul> <li>Identify, assess, evaluate, manage and report material sustainability risks and opportunities relevant to the Group's operations for approval; and</li> </ul>
	<ul> <li>Facilitate sustainability disclosures as required by laws and regulations, and subsequently recommend them for approval.</li> </ul>

The Group has established a sustainability governance structure as depicted below:-

# MATERIALITY

The Group, when conducting its materiality analysis exercise, took into consideration the views and responses of all its stakeholders. It has deliberated over the various environmental, economic and social aspects of its operation whilst simultaneously taking into account their respective impact and risks. By doing this, the Group has also discovered opportunities for future success and continued growth.

From the evaluation of the Group's Sustainability Risk and Opportunities, the Group has maintained commitment to the Thirteen (13) key sustainability issues identified and discussed in the previous year's Sustainability report. At the time, these issues were assessed as being of high concern to stakeholders and of high significance to the Group, and we have remained committed to them throughout the entirety of 2020. These material issues have been prioritized through our materiality assessment process. Material issues identified are then assessed to establish if proper policies and procedures are implemented to manage and monitor these issues.

KEY SUSTAINABILITY MATTERS	SUSTAINABILITY FRAMEWORK	
Economic Performance	MARKET PLACE	
Governance and Business Ethics		
Regulatory compliance		
Sustainability Certification		
Stakeholder Engagement		
Water Management	ENVIRONMENT	
Energy		
Greenhouse Gas (GHG) Emission		
Training and Education	WORKPLACE	
Labour Relations and Human rights		
Occupational Safety and Health		
Employee Retention & Engagement		
Community Care and CSR initiatives	COMMUNITY	

The 13 key sustainability issues are listed below:-

#### STAKEHOLDER ENGAGEMENT

The Group recognises that the engagement and feedback of its stakeholders are an integral part of its sustainability strategies and initiatives.

The stakeholders engagement process involves both formal and informal approaches. The following table provides an overview of the efforts undertaken by the Group to further the engagement of its stakeholders.

Stakeholder	Modes of Engagement	Key Areas of Interest
Employees	<ul> <li>Meetings</li> <li>Internal communications</li> <li>Training sessions</li> <li>Morning muster</li> <li>Events and functions</li> <li>Annual appraisals</li> </ul>	<ul> <li>Safety and health issues and practices</li> <li>Employee engagement</li> <li>Wages and remuneration</li> <li>Suggestions and areas for improvement</li> </ul>

### **STAKEHOLDER ENGAGEMENT** (cont'd)

Stakeholder	Modes of Engagement	Key Areas of Interest	
Smallholders and local communities	<ul> <li>Formal and informal meetings</li> <li>Corporate social responsibility events</li> </ul>	<ul> <li>MSPO certification program for oil palm cultivation</li> <li>Employment opportunities</li> <li>Complaints and grievances</li> </ul>

### **Investor and Shareholder Relations**

The Board recognises the importance of timely dissemination of information. We strive to keep our shareholders and investing community well informed of all major developments in the Group. A periodic overview of the Group's performance and operation is provided to shareholders and the investing public via announcements, disclosures in the Annual Report and quarterly release of financial results.

The Company uses the Annual General Meeting (AGM) as a forum for dialogue and interaction with all its shareholders. The Board of directors and key members of the management team are available to answer any questions raised.

The Company's website at www.mhc.com.my contains vital information concerning the Group and it is updated on a regular basis. Shareholders are able to pose questions to the Company through the website.

### MARKET PLACE

#### **Governance and Business Ethics**

Our business conduct shall be guided by honesty, integrity and a commitment to excellence. We are committed to promoting responsible practices among our business partners and showing care for the wellbeing of our customers. The group upholds the principles of good corporate governance in line with the expectations of our stakeholders and investors, whilst adhering to the rules and regulations of the law. The Group's practices, alongside our continuous improvements and commitment to corporate governance, is further elaborated on in the 'Statement on Corporate Governance' found in this Annual Report.

In keeping with good corporate governance and as per the Group's Whistleblowing Policy (Policy), all our employees and workers are encouraged to raise genuine concerns regarding any improper conduct. Wrongdoings include, but are not limited to, any breaches of trust, corruption, fraud, waste and/or misappropriation of Group resources, abuses of power or position, sexual harassment, endangerment of the health and safety of employees or the public and any attempt to conceal or suppress information relating to the above.

The Group's Code of Conduct and Ethics, Whistleblowing Policy and other Corporate Governance policies which are listed below are accessible through the Group's website at *www.mhc.com.my*.

The Malaysian Anti-Corruption Commission (Amendment) Bill 2018 was gazetted on 4 May 2018 as the MACC Amendment Act 2018. The enforcement of provisions on corporate liability became effective on 1st June 2020. This new provision establishes a new statutory corporate liability offence of corruption that applies not only to commercial organisations but also to any persons associated with them. Individuals may be held liable for the same offence as their organisation, unless the relevant persons can prove otherwise. The Group has formulated policies and procedures, which will be reviewed regularly, to mitigate the potential risks.

The Group's Anti-Bribery and Corruption Policy Policy are accessible through the Group's website at www.mhc.com.my.

#### Malaysian Sustainable Palm Oil Certification ("MSPO")

MSPO is a mandatory national sustainability certification scheme for the oil palm industry in Malaysia, covering the entire supply chain from oil palm plantations to downstream facilities. All oil palm industry players in Malaysia are mandated to be certified under the MSPO certification scheme by the end of 2019.

All our palm oil mills and estates have completed MSPO certification. In addition, our oil mills in Teluk Intan and Sandakan were also certified under the MSPO Supply Chain Certification ("SCCS") on 21 December 2019 and 9 March 2020 respectively. This further reinforces our sustainability credentials with customers and enhances confidence in our sustainably managed business.

#### **Economic Performance**

The Group recorded revenue of RM354.74 million and profit before tax of RM31.20 million for the financial year ended 31 December 2020 as compared to RM308.00 million and RM9.40 million respectively in the previous financial year. Further details of the Group's economic performance for FY2020 can be found in the Financial Statement in this Annual Report.

### **Value Distribution**

The direct economic value generated and distributed by the Group for 2020 is tabulated below:

	2020 RM'000	2019 RM'000
Employee wages and benefits	37,193	38,678
Payment to Government	19,017	17,064
Payment to Shareholders (Dividend)	2,948	2,948
CSR contribution	652	621

#### **Procurement Practices**

We make every effort to ensure that our materials are sourced from local suppliers, so as to empower and boost local communities. The Group sources all our purchases locally and did make any direct purchases from outside Malaysia throughout 2020.

### ENVIRONMENT

28

The Group strives to achieve a sustainable long term balance between meeting its business goals and preserving the environment. It recognises that the continued health of ecosystems is an integral part of sustaining its business. Hence, conservation and preservation of the environment remains a priority of the Group.

# **Conservation and Biodiversity**

Our objective is to conduct operations under the best principles of agriculture. We strive to be compatible with the natural environment and are in full support of Integrated Pest Management techniques and Best Management Practices for existing plantations on peat. We also promote the conservation and development of biodiversity within our plantations.

The Group does not operate or develop within international or nationally designated protected areas. As such, we do not conduct development on High Carbon Stock Forests (HCS) or High Conservation Value Forest Areas (HCV) and we have no new development on Peat Land. To strengthen our commitment to No Deforestation, we endeavor to maintain an open and dynamic approach towards continuous improvement in respect of HCS and HCV.

HCV areas considered socially valuable have signboards erected to create awareness for the surrounding community. These boards include prohibitions on encroachment, trapping, hunting and fishing as well as prohibiting outsiders from trespassing with the intent of damaging these areas.

As of December 2020, a total of 162 hectares of land have been declared as Conservation and HCV areas within the Group.

The Group is also committed to the practices of sound soil management. Examples of our efforts include:

- Annual leaf nutrient analyses to determine amount and appropriate composition and of soil nutrients;
- Systematic application of empty fruit bunches to fields as a means of fertilization; and
- The planting of leguminous cover crops.

We also work to mitigate the water footprint related to our operations and this is further detailed below under 'Water Management'

#### ENVIRONMENT (cont'd)

### Greenhouse Gas (GHG) Emission

To mitigate Greenhouse Gas emissions, the Group constructed and operates two Biogas Power Plants ("Biogas Plant") as well as a Biomass Power Plant ("Biomass Plant"). These Power Plants generate green power for use in our operations and any surplus is exported to the electrical grid.

Methane emissions from the treatment of palm oil mill effluent ("POME") are a large contributor to operational GHG emissions. The two biogas plants commissioned by the Group, one in Sandakan and one in Teluk intan, capture methane and mitigate GHG emissions. Together, they contribute to a total GHG reduction of approximately 350,000MT of CO2 per year.

Additionally, our oil mill recycles the POME residual solids, namely belt press solid and decanter cake, into organic fertilisers which are then reapplied to our estates. This helps preserve the environment by decreasing the application of chemical fertilisers whilst also reducing the Group's cost on fertilisers.

#### Water Management

The Group's water management involves measures taken to preserve and protect waterways, whilst optimizing water usage.

The Group adopts a zero discharge policy regarding Palm Oil Mill Effluent ("POME"). To prevent POME entry into waterways, it is first polished in the Biogas Plant before it is discharged via land irrigation.

Measures and practices that have been implemented by the Group include:-

- i. optimising water usage in nurseries through drip-irrigation;
- ii. land irrigation and application with treated POME;
- iii. installing watergates at strategic locations along drains to keep an optimum water table level in the estate;
- iv. increasing water reservoirs and storage tanks for rainwater harvesting in the housing sites; and
- v. riparian zones or areas which are identified and maintained to avoid runoff from cultivated land into the natural waterways.

For the year 2020, the Group's palm oil mill maintained a water consumption (in unit of mt per mt of fruit fresh bunches processed) of 1.74 MT water per MT of FFB processed. This was a decrease compared to the 1.81 water per MT of FFB processed in the year 2019.

### **Energy Consumption**

#### At our Estates

Fossil fuels are primarily used by mechanised equipment, agricultural machinery and vehicles for the operation of our estates.

In 2020, total diesel fuel consumption by our estates and housing quarters was approximately 1.83 million (2019-1.82 million) litres.

Presently, two (2) estates have installed solar panels to generate power for the houses located away from the main complex. The Group will continue to explore installing additional solar panels in other estates still dependant on diesel-powered generation (as their main source of power supply).

#### ENVIRONMENT (cont'd)

#### Energy Consumption (cont'd)

#### At our Oil Mills

The main source of power for our palm oil mill operation is derived from renewable energy. The fuel used in the boilers is biomass-fiber and shell from oil palm fruit bunches.

In 2020, most of the energy consumption in our oil mills, amounting to almost 85% (2019 – 95%), came from renewable sources.

#### **Zero Burning Policy**

The Group maintains a strict Zero Burning Policy in relation to all new planting, re-planting and other related development.

#### **Integrated Pest Management**

We have adopted environmentally friendly techniques and used them to innovate our Integrated Pest Management System. The Group favours an integrated pest management approach which includes the deployment of biological control instead of widespread pesticide use for pest control. The placement of pheromone traps to capture rhinoceros beetles are among the methods that have proven effective in reducing pest damage to our crops over the years. We also plan to introduce barn owls in our estates to suppress rat populations.

Substitution of chemical fertilizers with nutrient-rich organic matter such as empty fruit bunches and treated POME are also a common practice in our estates.

Since 2011, the Group has not purchased Paraquat herbicide due to concerns raised over its potential to harm workers. In adhering to government regulations, only chemicals approved by the Pesticides Board are used in the estate.

#### **Biomass Recycling**

In accordance with the Group's biomass recycling best practices, empty fruit bunches ("EFB") are extensively used in our estates. The benefits of EFB application on plantation land are well documented, especially for moisture retention and for increasing organic matter in soil leading to better nutrient utilisation and uptake.

#### WORK PLACE

#### **Fair Employment Practices**

The Group considers its employees to be one of its greatest assets and recognise them as major contributors to its success.

The Group advocates fair employment policies and practices. It is committed to equal employment opportunities without discrimination in regard to gender, age, religion, race, ethnicity, and origin. We do not use forced labour nor do we approve of the practice of child labour. We do not tolerate any involvement in human trafficking.

#### WORK PLACE (cont'd)

#### Fair Employment Practices (cont'd)

The equality policy is embedded in all workplace procedures, starting from the recruitment process. A Sexual Harassment Policy is also in place to ensure female employees and workers are protected from sexual harassment and any form of violence in the workplace.

In addition, we have a formal grievance mechanism in place so that complaints of mistreatment and abuse can be reported. The mechanism covers complaints on labour practices and human rights and also comes with a remediation process. Guidelines on the complaint and grievance procedure has been established as part of the Group's Employment Policy.

### **Employees Wages and Welfare**

The Group complies with the minimum wages stipulated by the Minimum Wages Order 2018. The Group believes that its people should be fairly rewarded and recognised. The basis of recognition is not limited solely to work performance but also includes other aspects such as behaviour at work, creativity and involvement in the Group's activities. Our reward philosophy covers basic salary, benefits, short-term variable bonuses as well as promotion.

We are to dedicated to having a comfortable environment for our workers and their dependents to work and live in. To this end, a comprehensive range of amenities is provided at the Group's operating units. This includes housing, water and electricity supply, healthcare, places of worship, childcare facilities and other recreational amenities. The Group continues to upgrade these amenities to ensure compliance with "Workers" Minimum Standards of Housing and Amenities Act 1990 (Act 446).

#### **Occupational Safety and Health**

The Group is committed to providing a safe and healthy working environment for all employees and contractors engaged at work. To maintain conditions, an Occupational Safety & Health (OSH) Policy is in place that governs the entirety of the Group. We also have Safety and Health Committees (consisting of management and employee representatives) based in all our estates and oil mills.

The Group's Safety and Health Officer (SHO) makes periodic workplace inspections to ensure safety protocols are implemented in compliance with legislative requirements. Workers are provided with safety equipment as befits their job responsibilities and they are given working procedures to follow. The codes of health and safety regarding practices and procedures are strictly adhered to at all times by all parties concerned. Safety operating procedures and system checks for all processes and equipment are in place and product quality standards are stringently maintained in a responsible manner.

Our target is to always maintain zero fatalities at the workplace. There have been zero fatalities at the workplace in the whole Group for the past 12 months and the Lost Time Injury Frequency Rate (LTIFR) is at 6.71.

LTIFR represents the number of accidents with lost days for every (1) million-man hours worked.

Every accident is formally investigated to determine the root cause and to prevent the recurrence of such incidents.

#### WORK PLACE (cont'd)

#### Protecting Our Employees during COVID-19

The Group established SOPs and precautionary practices to guide operations during the Covid-19 pandemic. A strict compliance of wearing face masks, observing physical distancing and sanitisation of work place areas are some of the measures taken by the Group. The Group will continue to take precautionary measures and monitor the situation closely, and will do whatever is necessary to protect its employees whilst ensuring business continuity.

### Training

Our human capital development programmes include in-house and external training, seminars and the provision of information/knowledge sharing platforms to encourage shared knowledge and communication.

In addition to the above, the Group has carried out internal training throughout the year at each of its operating units. Training topics included personal protective equipment (PPE), chemical handling, hazard guidance, vehicle competency, safety work procedures and safe handling of tools & equipment at mechanical/ vehicle workshops.

# **Recruitment and Employee Retention**

The Group faces challenges from the shortage of foreign labour in the palm oil industry. This is partly due to strict entry rules into Malaysia but also the result of improving job opportunities in workers' home countries such as Indonesia.

The Group also finds it difficult to attract and retain younger employees due to the remote location of the plantation and the nature of the plantation tasks.

The Group mitigates high employee turnover and job dissatisfaction through comprehensive employee benefits, competitive remuneration, training and personal development, and a conducive working culture.

To mitigate the risk of labour shortages, we are continuously devising ways to increase efficiency and productivity whilst looking into methods of mechanization.

#### COMMUNITY

The Group cares about the well-being of the community. We believe in sharing and giving back to communities to promote their growth and also to improve the overall well-being of their people.

The Group contributes to the local community through Dato' Seri Mah Pooi Soo Benevolent Fund ("the Fund") which is a charitable organisation funded by the Group.

The Fund is dedicated to the advancement of education and religion, relief of poverty and other purposes beneficial for the community.

As part of our COVID-19 relief efforts, the Group contributed a total sum of RM120,000.00 towards the purchase of personal protective equipment ("PPE") and essential medical supplies for the healthcare workers of Tanjong Malim and Teluk Intan.

#### COMMUNITY (cont'd)

Our COO and Manager with the team at Teluk Intan Hospital.

Annual Report 2020

Our COO and Manager with the team at Daerah Mualim (To be distributed to Hospital Slim River, Klinik Kesihatan Slim River and Klinik Kesihatan Tanjung Malim).

The Group is working with the Borneo Child Aid Society, Sabah (Humana) in Sandakan to provide basic education and care for children of foreign plantation workers, who are unable to enrol in Malaysian national schools. The Cepatwawasan-Humana Education Resource Centre currently has 73 (2019:149) students - the majority consists of our workers' children but the school also includes children from nearby communities. The Group has also built a new learning centre at its estate in Beaufort, Sabah. Once again, this centre is directed at plantation workers' children who are unable to attend Malaysian national schools. This centre offers classes based on the Indonesian curriculum in preparation for the children's future repatriation to their home country. In 2020, the number of students attending this learning centre was 58 (2019 – 52).

The Group is partnering with Yayasan Orang Asli Perak to provide basic education and care for the children of Orang Asli at Pusat Kecemerlangan Pendidikan Orang Asli Perak, located between Simpang Pulai and Cameron Highlands.

The Group also contributed to the establishment of a Bistari IT Centre at the Pusat Kecemerlangan Pendidikan Orang Asli Perak. This IT College is intended to improve the living standard of Orang Asli by providing them skills training in the fields of computer science, business management and engineering in welding (Oil & Gas).

This Statement is made in accordance with the resolution of the Board of Directors passed on 23 February 2021.

# **Corporate Governance Overview Statement**

### Introduction

Annual Report 2020

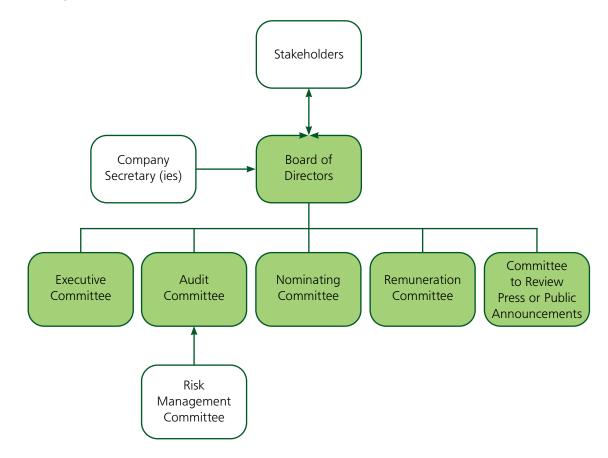

The Board of Directors ("the Board") recognises the importance of adopting high standards of corporate governance throughout the Company and the Group as a fundamental part of discharging its responsibilities to protect and enhance long term shareholders value and the Group's financial performance, whilst considering the interests of other shareholders.

This Corporate Governance Overview Statement ("Statement") sets out how the Company has applied the Principles of the Code and observed the Recommendations supporting the Principles and is to be read together with the Corporate Governance Report 2020 ("CG Report") which is available on the Company's corporate website at www.mhc.com.my as well as announcement on the website of Bursa Malaysia Securities Berhad ("Bursa Securities") and in conjunction with the other statements in the Annual Report (for example, Statement on Risk Management and Internal Control and Sustainability Statement).

The CG Report provides the details on how the Company has applied the following three (3) principles which are set out in the MCCG during the financial year 2020:

- (a) Board leadership and effectiveness;
- (b) Effective audit and risk management; and
- (c) Integrity in corporate reporting and meaningful relationship with stakeholders.

# The Group's Governance Framework

Corporate Governance Overview Statement (cont'd)

# Principle A : Board Leadership and Effectiveness

### Principal Responsibilities of the Board

The Board is led by the Executive Chairman and is supported by an experienced and dynamic Board members with a wide range of expertise, who play an important role in the stewardship of the direction and operations of the Group.

The Board assumes full responsibilities for the overall performance of the Company and its subsidiaries by setting the policies, short term and long term plans, establishing goals and monitoring the achievement of the goals through strategic action plans and careful stewardship of the Group's assets and resources. It focuses on financial performance and crucial business issues, like principal risks and their management, succession planning for senior management, investor relations programme and shareholders communication policy, systems for internal control and compliance with laws and regulations.

### **Board Charter**

The Board has a Board Charter which sets out the functions reserved for the Board and those delegated to Management in the Board Charter (the "Charter") which serves as a reference point for Board's activities. The Charter provides guidance for Directors and Management on the responsibilities of the Board and its Committees, and requirements of Directors to ensure consistency with the Board's strategic intent as well as relevant standards of corporate governance. The terms of the Charter are made available on the Company's website at www.mhc.com.my.

Along with good governance practices and in order to enhance transparency and accountability, the Board has in place the following policies and procedures, full details of which are made available on the Company's website at www.mhc.com.my:

- Board Charter and Code of Conduct
- Code of Conduct and Ethics
- Shareholder's Rights relating to General Meetings
- Whistleblowing Policy and Procedure
- Anti-Bribery and Corruption Policy
- Sustainability Policy
- Remuneration Policy and Procedures

#### **Board Composition and Independence**

The Board, led by the Executive Chairman, currently comprises five (5) members who bring with them a wide mix of knowledge, business acumen, industry expertise and financial experience which are invaluable assets required in their thorough examination and deliberations of the various key issues and matters involving the Group. A brief description of the background of each Director is presented under the Directors' profile section of this Annual Report.

The Board is appropriately balanced to reflect the interest of substantial shareholders. As such, the Board is satisfied that the current Board composition fairly represents and protects the interest of the minority shareholders in the Company. The Independent Directors play a key role in providing unbiased views and impartiality to the Board's deliberation and decision-making process. In addition, the Independent Directors ensure that matters and issues brought to the Board are given due consideration, fully discussed and examined, taking into account the interest of all stakeholders in the Group. The assessment on independence of the Directors based on the provisions of the Listing Requirements covers a series of objective tests and is carried out before the appointment of the Independent Directors. Furthermore, the Board with assistance from the Nominating Committee will undertake to carry out annual assessment of the effectiveness of the Independent Non-Executive Directors can continue to bring independent and objective judgement to the Board deliberations. Any Director who considers that he has or may have a conflict of interest or a material personal interest or a direct or indirect interest or relationship that could reasonably be considered to influence in a material way the Director's decision in any matter concerning the Company, is required to immediately disclose to the Board.

#### Principle A : Board Leadership and Effectiveness (cont'd)

#### Board Composition and Independence (cont'd)

The Board comprises five (5) members, of whom two (2) are Executive Directors and three (3) are Independent Non-Executive Directors. The Company has thus satisfied Paragraph 15.02(1) of the Main Market Listing Requirements ("MMLR") of Bursa Securities, which requires that at least two or one-third of the Board members, whichever is the higher, comprises Independent Non-Executive Directors.

The Company has taken note of Principle 4.2 of the Code that the tenure of an Independent Director should not exceed a cumulative term of nine (9) years. Upon completion of nine (9) years, an Independent Director may continue to serve on the Board subject to the director's re-designation as a Non-Independent Director. However, the Company does not have term limit policy for independent directors but the Nominating Committee annually assesses the independence of the Directors based on the criteria stipulated in paragraph 1.01 of the Listing Requirements. Thus, the Board must justify and seek Shareholders' approval at an Annual General Meeting ("AGM") in the event it retains the director as an Independent Director beyond nine (9) years. If the Board continues to retain the Independent Director after the 12th year, the Board shall seek Shareholders' approval at an AGM through a two-tier voting process.

The Board shall examine the composition and size of the Board from time to time to ensure its effectiveness. In this regard, the Board through its Nominating Committee (NC) conducts an annual review of its size and composition, to determine if the Board has the right size and sufficient diversity with independence elements that fit the Company's objectives and strategic goal.

#### Foster Commitment

Each Director does not hold more than five (5) directorships in public listed companies to ensure that they have sufficient time to focus and discharge their duties and responsibilities. The Board is satisfied with the time and level of commitment given by the Non-Executive Directors towards fulfilling their roles and responsibilities as Directors of the Company during the financial year ended 31 December 2020.

#### **Board Meetings**

The Board meets four (4) times a year on a scheduled basis with additional meetings held when specific urgent or important matters are required to be considered and decided between the scheduled meetings. A total of four (4) Board Meetings were held during the financial year. All the Directors have complied with the minimum attendance at Board Meetings as stipulated by Bursa Securities during the financial year as follows:

No	Name of Directors	Meeting Attendance
1	Dato' Seri Mah King Seng	4/4
2	Tan Sri Dr. Mah King Thian	4/4
3	Mr. Chan Kam Leong	4/4
4	Puan Wan Salmah Binti Wan Abdullah	4/4
5	Mr. Heng Beng Fatt	4/4
6	Ms. Mah Li-Na (Alternate Director to Dato' Seri Mah King Seng)	4/4
7	Dr. Jordina Mah Siu Yi (Alternate Director to Tan Sri Dr. Mah King Thian)	4/4

#### Principle A : Board Leadership and Effectiveness (cont'd)

#### Gender Diversity Policy

The Company does not have a policy on gender diversity but the Board endeavours to have at least one (1) woman Director participating on the Board at all times. The Board also endeavours to have diversity in its workforce in terms of experience, qualification, ethnicity and age. The Board recognise the value of female member of the Board. Currently, the Board has one female Director, Puan Wan Salmah Binti Wan Abdullah.

#### **Re-appointment and Re-election of Directors**

In accordance with the Company's Constitution, all Directors who were appointed by the Board are subject to re-election at the first opportunity after their appointment and at least one third (1/3) of the remaining Directors are subject to re-election by rotation at each AGM. The Constitution also provide that all Directors shall retire at least once in three (3) years and in accordance with the MMLR of Bursa Securities.

Where any Director is required to retire from office, the Nominating Committee reviews the composition of the Board and decides whether to recommend such Director for re-election taking into account the Director's attendance at meetings, participation, contribution and time commitment.

Puan Wan Salmah Binti Wan Abdullah and Mr. Heng Beng Fatt will be retiring by rotation at the forthcoming AGM to be held on 31 May 2021 and being eligible, offered themselves for re-election. At the recommendation of the Nominating Committee and as approved by the Board, they will be seeking re-election as Directors at the 2021 AGM.

Annual Report 2020

#### **Continuous Training of Directors**

Directors are expected to devote sufficient time to update their knowledge and enhance their skills through appropriate continuing education programmes, so as to enable them to sustain their active participation in the Board's deliberations. Hence, the Board recognises and has undertaken an assessment of the training needs of each Director to continue developing their skills and knowledge. All Directors have complied with the Continuous Training Programme prescribed by Bursa Securities. However, every Director is encouraged to evaluate their own training needs and undergo continuous training to equip himself with enhanced knowledge and effectively contribute his duties to the Board.

During the financial year, the Directors have attended several conferences, seminars and training programmes as follows:

- Panel Discussion on Covid-19 hosted by the Malaysian Health Ministry
- Towards a Resilient and Sustainable Food Security for Malaysia in Challenging Times
- Malaysia Budget 2021
- Technical Talk on Industrial Revolution (IR) 4.0 Transformation to Smart Factory in Manufacturing: Are you ready for it?
- MACC Gap Assessment Workshop
- Harnessing Recovery Path to the Next Normal
- An Introduction to Integrated Reporting
- Resilience in a Crisis
- Important Industrial & Higher Court Decisions of 2019
- Dialogue on S17A Corporate Liability and Adequate Procedures by MICG
- Expert Insight Palm & Kernel Oil Prices Outlook Off Target Get More Precise from REAL EXPERT

The Company Secretary keep the Directors informed of the relevant external training programmes.

The Company Secretary circulated from time to time the relevant guidelines on statutory and regulatory requirements to the Directors.

The Board will continuously evaluate and determine the training needs of its members to assist them in the discharge of their duties as Directors.

#### Principle A : Board Leadership and Effectiveness (cont'd)

#### Qualified and Competent Company Secretary

The Board believes that the current Company Secretary is capable of carrying out her duties to ensure effective functioning of the Board. The Company Secretary ensure that all Board and Board Committee meetings are properly convened and that records of the deliberations, proceedings and resolutions passed are properly recorded and statutory registers are properly maintained at the registered office of the Company. She constantly keep herself abreast of the evolving capital market environment, regulatory changes and developments in corporate governance by attending the relevant training programmes/conferences.

#### Access to Information and Advice

The Board has access to information within the Group and the advice and services of the Company Secretary. The Directors may obtain independent professional advice to enhance their duties whenever necessary at the Company's expense, subject to approval by the Chairman or the Board and depending on the quantum of the fees involved.

The Board members are provided with all meeting materials including updates on operational, financial and corporate issues as well as minutes of meetings of the various Board Committees at least five (5) days prior to the meetings to enable Directors to obtain further explanations/clarifications, if necessary, in order to ensure the effectiveness of the proceeding of the meetings.

#### **Board Committees**

The Board is assisted by the following Sub-Committees in the discharge of its duties and responsibilities:

Audit Committee ("**AC**") Executive Committee ("**EC**") Nominating Committee ("**NC**") Remuneration Committee ("**RC**") Committee for the review of press releases or public announcements

#### AC

The AC was established on 27 September 2000 to support the Board of Directors in overseeing the processes for production of financial data and reviewing the financial reports and the internal controls of the Company. Details of the composition and summary of work of the AC are set out in the AC Report on pages 50 to 51 of this Annual Report.

#### EC

The EC was set up on 24 May 2001 to act on behalf of the Board on matters concerning administration, operations, capital expenditure, debt approvals and investments. It meets at regular intervals to review the operations, budget and investment strategy. It has three (3) members comprising the Executive Chairman, the Managing Director and a Senior Executive:

- 1) Datin Seri Ooi Ah Thin (Senior Executive) Chairperson
- 2) Dato' Seri Mah King Seng (Executive Chairman)
- 3) Tan Sri Dr. Mah King Thian (Managing Director)

#### NC

The role of the NC is to assist the Board in ensuring that the Board comprises individuals with the requisite skills, knowledge, professional expertise and character.

#### Principle A : Board Leadership and Effectiveness (cont'd)

#### **Board Committees** (cont'd)

**NC** (cont'd)

The NC comprises exclusively Non-Executive Directors who are independent. Currently, the members are as follows:

- 1) Mr. Chan Kam Leong (Chairman, Independent Non-Executive)
- 2) Puan Wan Salmah Binti Wan Abdullah (Independent Non-Executive)
- 3) Mr. Heng Beng Fatt (Independent Non-Executive)

The NC meets as and when necessary. One (1) meeting was held during the financial year ended 31 December 2020.

The nomination and election process of board members can be found on the Company's website at www. mhc.com.my.

The activities of the NC during the financial year are as follows:

- Reviewed the mix of skills, independence, experience and other qualities of the Board.
- Reviewing the terms of office and performance of the AC, NC and the RC.
- Reviewed and recommended to the Board to put for the proposal for the re-election of Directors at the forthcoming AGM of the Company.
- Assessed the independence of the Independent Directors.
- Reviewed and recommended the continuation in office of an Independent Non-Executive Director for Mr. Chan Kam Leong and Puan Wan Salmah Binti Wan Abdullah who have served as Independent Non-Executive Directors of the Company for a cumulative term of more than nine (9) years;
- Reviewed the annual assessment of the effectiveness of the Board, committees and individual Directors with the following criteria used:

#### Audit Committee

- i) Quality and Composition;
- ii) Skills and Competencies; and
- iii) Meeting Administration and Conduct.

#### Board of Directors

- i) Board Roles and Responsibilities
- ii) The Board Operations and the Company Senior Management
- iii) Board Meetings and Facilities
- iv) Board Composition
- v) Board Committees

At the NC meeting held on 17 November 2020, the NC had conducted and carried out an annual assessment of the Board and its individual members, the AC and its members, and the RC and its members, including assessing in the area of board diversity, composition and governance, decision-making and Boardroom activities, skills and contribution of each director. The NC was satisfied with the current board size and the effectiveness of the Board/Board Committees and thus, no recommendation on the change of composition of the Board is made. All assessments and evaluations out by the NC in discharging its functions have been properly documented.

#### Principle A : Board Leadership and Effectiveness (cont'd)

#### **Board Committees** (cont'd)

#### RC

The RC comprises the following three (3) members:

- 1) Tan Sri Dr. Mah King Thian (Chairman, Managing Director)
- 2) Mr. Chan Kam Leong (Member, Independent Non-Executive)
- 3) Puan Wan Salmah Binti Wan Abdullah (Member, Independent Non-Executive)

The RC meets as and when necessary. One (1) meeting was held during the financial year ended 31 December 2020.

The RC provides remuneration packages which are sufficient and necessary to attract, retain and motivate Executive Directors and Senior Management to run the Company. The remuneration of Non-Executive Directors is linked to their experience and level of responsibilities undertaken by them.

The Board has a Remuneration Policy and Procedure which facilitates the RC to review, consider and recommend to the Board for decision on the remuneration packages of the Executive Directors and Senior Management.

The Remuneration Policy and Procedure can be found on the Company's website at www.mhc.com.my.

#### Committee for the Review of Press Releases or Public Announcements

The Committee for the review of press releases or public announcements, comprising the Executive Chairman, Dato' Seri Mah King Seng, and the Managing Director, Tan Sri Dr. Mah King Thian, is responsible for making timely dissemination of information to the shareholders and investing public and ensuring that the information released is factual, clear, accurate and not false or misleading.

#### Remuneration of Directors and Key Senior Management Personnel

The Company's framework on Directors' remuneration has the underlying objectives of attracting and retaining Directors of high calibre needed to run the Group successfully. In the case of the Executive Directors, the various components of the remuneration are structured so as to link rewards to corporate and individual performance. In the case of Non-Executive Directors, the level of remuneration reflects the expertise, experience and level of responsibilities undertaken by a particular Non-Executive Director concerned.

The Company has identified the Chief Operating Officer, Group General Manager of the Company's subsidiary namely Cepatwawasan Group Berhad and Group Accountant who are the most senior management personnel outside the Board as its key senior management personnel.

The objective of the Group's remuneration policies is to provide fair and competitive remuneration to its Board and senior management personnel in order for the Company to benefit by attracting and retaining a high quality team.

The Company pays its Non-Executive Directors allowances based on attendance of meetings and level of responsibilities.

The Company provides Directors' and Officers' Liability Insurance and may provide an indemnity to the fullest extent permitted by the Companies Act, 2016, and the cost of such Liability Insurance is set out in the Directors' Report.

#### Principle A : Board Leadership and Effectiveness (cont'd)

#### Remuneration of Directors and Key Senior Management Personnel (cont'd)

The details of the remuneration of Directors comprising remuneration received/receivable from the Group and Company during the financial year are as follows:

	Salary RM'000	Fees RM'000	Bonus RM'000	Allowance RM'000	Benefits- in-kind RM'000	EPF RM'000	Total RM'000
Group

#### Principle B : Effective Audit and Risk management

#### Risk Management and Internal Control Framework

The Board has a Group Risk Management Committee (RMC) that comprises the Managing Director and senior management to review the risk management framework and assess the various types of risks which might have an impact on the profitable operation of the Group's business. This includes operational, market, legal and environmental risks. The key features of the risk management framework are set out in the Statement on Risk Management and Internal Control on Pages 45 to 49 of this Annual Report.

In accordance with the Code and the MMLR of Bursa Securities, the Board has an internal audit function which reports directly to the AC. The function is currently outsourced to an independent professional firm. The AC had also undertook an annual assessment of the quality of the internal auditor based on an assessment questionnaire, and no material issue and major deficiency had been noted which pose a high risk to the overall system of internal control under review.

Details on scope of work performed during the financial year under review are provided in the AC Report set out on Pages 50 to 51 of this Annual Report.

#### Assessment of Suitability and Independence of External Auditors (EA)

The AC had deliberated the outcome of the Evaluation of the EA including the assessment of the Engagement Teams' qualification, credentials and experience, particularly in the financial service sector, the firms' competitive advantage with global network resources, their audit work approach, and their ability to provide value added and service as well as to perform the work within MHC's timeline. Messrs PKF had also confirmed their independence throughout the conduct of the audit engagement with the Company in accordance with the independence criteria set out by the International Federation of Accountants and the Malaysian Institute of Accountants.

A statement by the Directors of their responsibilities in preparing the financial statements is set out on Page 44 of this Annual Report.

#### Relationship with the Auditors

The Board has a formal and transparent arrangement with its external auditors to meet their professional requirements. The auditors have continued to highlight to the AC and Board of Directors matters that require the Board's attention. The AC will have a private session with the external auditors without the presence of any executive of the Group at least twice (2) a year. In addition, the external auditors are invited to attend the Company's AGM.

The role of the AC in relation to the external auditors is set out in the Report of AC on Pages 50 to 51 of this Annual Report.

#### Principle C : Integrity in Corporate Reporting and Meaningful relationship with Stakeholders

#### Investor Relations and Communication

The Board recognises the importance of timely dissemination of information to its shareholders to keep them well informed of all major developments of the Group. Disclosures in the Annual Report, announcements and releases of the quarterly financial results provide the shareholders and the investing public with a periodic overview of the Group's performance and operations.

The Company uses the AGM as a forum for dialogue and interaction with all its shareholders. Shareholders are encouraged to attend and participate in the AGM. They will be given the opportunity to seek clarification on any matters pertaining to the Company's affairs and performance, as the Directors and the representatives of the External Auditors will be present to answer any questions that they may have.

The Board has identified Mr. Chan Kam Leong, the Independent Non-Executive Director, as the Liaison Director to whom the shareholders, management and others may convey their concerns.

Shareholders may also contact the Company Secretary at any time for information.

The Company's website at www.mhc.com.my contains vital information concerning the Group which is updated on a regular basis and shareholders are able to put questions to the Company through the website.

Annual Report 2020

#### Poll Voting

In line with the MMLR, all resolutions set out in the Notice of AGM will be voted by poll and a scrutineer will be appointed to validate the vote cast. Poll voting more accurately and fairly reflects shareholders' views as every vote is recognised thus enforcing greater shareholders' rights.

#### **Compliance with the Code**

The Group has complied with the Principles of Corporate Governance as contained in the Code except for the following exception that, in the opinion of the Directors, adequately suit the circumstances:

- Practice 4.5 (The board discloses in its annual report the company's policies on gender diversity, its targets and measures to meet those targets. For Large Companies, the board must have at least 30% women directors.)
- Practice 4.6 (In identifying candidates for appointment of directors, the board does not solely rely on recommendations from existing board members, management or major shareholders. The board utilises independent sources to identify suitably qualified candidates.)
- Practice 7.2 (The board discloses on a named basis the top five senior management's remuneration component including salary, bonus, benefits-in-kind and other emoluments in bands of RM50,000.)

The explanation for departure is further disclosed in the Corporate Governance Report.

The Statement and Corporate Governance Report were approved by the Board of Directors of MHC on 23 February 2021.

### **Statement of Directors' Responsibility** for Preparing the Audited Financial Statements

The Directors are required by the Companies Act, 2016 to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group and of the Company as at the end of the financial year and of their results and cash flows for the financial year then ended.

In preparing the financial statements, the Directors have:

- selected appropriate accounting policies and applied them consistently;
- made judgements and estimates that are reasonable and prudent;
- stated whether applicable accounting standards have been followed and made a statement to that effect in the financial statements, subject to any material departures being disclosed and explained in the financial statements; and
- prepared the financial statements on a going concern basis.

The Directors are responsible for ensuring that proper accounting records are kept so as to enable disclosure of the accounts, financial position and other financial reports of the Group and of the Company are prepared in accordance with the applicable approved accounting standards in Malaysia and comply with the requirement of the Companies Act, 2016.

They are responsible for taking reasonable steps to safeguard the assets of the Group and of the Company for the prevention and detection of fraud and other irregularities. The Board of Directors is satisfied that the Group has applied the appropriate accounting policies and standards consistently in the preparation of the financial statements for the financial year ended 31 December 2020.

#### INTRODUCTION

The Board of Directors ("the Board") is pleased to present the Group's Statement on Risk Management and Internal Control for the financial year ended 31 December 2020 which is made in compliance with Paragraph 15.26(b) of the Bursa Malaysia Securities Berhad's (Bursa Malaysia) Main Market Listing Requirements and is guided by "Statement on Risk Management and Internal Control: Guidelines for Directors and Listed Issuers" endorsed by Bursa Malaysia.

#### **BOARD'S RESPONSIBILITY**

The Board acknowledges its responsibility for establishing an efficient and effective sound risk management framework and internal control system. The Board ensures the Group's key areas of risk are managed within an acceptable risks profile. There is an on-going review process for identifying, evaluating, responding to and managing significant risk faced by the Group to ensure the adequacy and integrity of the system.

In view of the limitations that are inherent in any system of internal control, this system is designed to manage key risks, rather than eliminate the risk of failure to achieve corporate objectives. Accordingly, the system can only provide reasonable but not absolute assurance against material misstatement, operational failures, fraud or loss.

#### **RISK POLICY**

The Group recognises its primary responsibility is to ensure the long term viability of the Group. The Group recognises that the risk is an integral and unavoidable component of its business and is characterised by threats and opportunities. The Group fosters a risk-aware corporate culture in all decision making. Our policy, therefore, is to achieve a proper balance between risk incurred and potential returns to shareholders and stakeholders.

#### **RISK MANAGEMENT FRAMEWORK AND CONTROL SELF-ASSESSMENT**

The Board has put in place a risk management framework and ongoing process to assess the various types of risks, which might have an impact on the profitable operation of the Group's business. These include operational risk, market risk, legal risk and environmental risk. After the review and taking into consideration the nature of the Group's business, the Directors are of the view that the Group is not materially exposed to legal and environmental risks and therefore have concluded to focus on the operational risks relevant to the business. Although there is exposure to market risk as a result of price fluctuations in the commodity market, the Directors consider these as movements in market forces inherent in the industry in which the Group operates.

The Board has established a formal Group Risk Management Committee that comprises the Managing Director and senior management. The Group Risk Management Committee is entrusted with the responsibilities of identifying and evaluating various critical risks that are considered likely to affect the profitable operation of the business units in the Group.

The key risk management processes for the main risk areas of the Group are as follows:

Annual Report 2020

Risk Area	Risk Management Process
Business/Operation Risks	- Relevant discussions have been held with the operational managers on the major risks affecting the business operations of the Group. As a result, a database of all major risks and controls, and subsequent actions taken was compiled to produce a divisional risk profile of the business units evaluated under the risk management plan.
	- Business/Operation Heads are provided with reports to enable them to review, discuss and monitor the risk profiles and implementation of action plans.
	- The Group implemented attractive remuneration schemes to attract and retain a skilled workforce to meet existing and future needs.
	- The Group is upgrading the living quarters of guest workers omplete with amenities including electricity and water, medical care, crèche, recreational and sports facilities in phases to attract and retain skilled workforce.
	- To cope with the adverse climatic conditions affecting oil palms, the plantation division strictly follows the requirements of the planting manual, employs good agricultural practices, and adopts water conservation and irrigation measures to sustain high production yields.
	- The Group is continuously devising ways to mechanise and increase efficiency and productivity to mitigate the risk of labour shortages.

The key risk management processes for the main risk areas of the Group are as follows: (cont'd)

Risk Area	Risk Management Process
Financial Risks	- The key financial risks of the Group include credit risk and liquidity risk.
	- Credit risks arise from the inability to recover debts in a timely manner which may adversely affect the Group's profitability, cash flows and funding. The Group minimises such exposures by assessing the creditworthiness of potential customers, closely monitoring collections and overdue debts, and effectively utilising credit to keep leverage at a comfortable level.
	- The Group trades only with recognised and creditworthy customers. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivables balances are monitored on an going basis and the Group's exposure to bad debts is very minimal. The Group usually trades only with recognised and creditworthy customers in which there is no requirement for collateral. Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's exposure to liquidity risk arises primarily from mismatches of maturities of financial assets and liabilities. The Group actively manages their debt maturity profile, operating cash flows and the availability of funding so as to ensure that all refinancing, repayment and funding needs are met. As part of its overall prudent liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements.
COVID-19	- The Group established SOPs and precautionary practices to guide operations during the Covid-19 pandemic. A strict compliance of wearing face mask, observing physical distancing and sanitisation of work place area are some of the measures taken by the Group. The Group will continue to take precautionary measures and monitor the situation closely, and will do whatever is necessary to protect its employees whilst ensuring business continuity.

#### INTERNAL AUDIT FUNCTION

The Board recognises that effective monitoring on a continuous basis is a vital component of a sound internal control system. In this respect, the Board through the Audit Committee regularly receives and reviews reports on internal control from its internal audit function.

The internal audit function is outsourced to a professional services firm which reports directly to the Audit Committee. The Internal Audit Function adopts a risk-based approach with focus on effective risk management practices. The scope of work covered by the internal audit function is determined by the Audit Committee after careful consideration and discussion of the audit plan with the Board. Observations from internal audits were presented to the Audit Committee together with management's response and proposed action plans for its review. The action plans were then followed up during subsequent internal audits with implementation status reported to the Audit Committee. The costs incurred for the Internal Audit function for the financial year ended 31 December 2020 totalled RM23,600.

#### OTHER KEY ELEMENTS OF INTERNAL CONTROL

Other key elements of the Group's internal control are as follows:

- The Board of Directors reviews the operational and financial performance of the Group every quarter and management meetings are conducted regularly at head office and operating division level. The Executive Committee ("EXCO") is aware of the significant issues identified in those meetings, and when necessary the EXCO shall be involved in resolving those issues. The Group has been restructured in such a way that duties are properly segregated to ensure safe custody of the Group's assets and to provide clear and transparent reporting lines.
- Timely preparation of quarterly operational and financial reports to the Board and monthly financial reports to Senior Management for review.
- Existence of an organisational structure with clear delegation of responsibilities.
- The Company has implemented a system of controls as set out in the Operations Manual. The Board will review from time to time and update the financial authority limits set out therein as and when necessary.
- A detailed budgeting process takes place annually, where each business unit prepares its budget for the following financial year and the budget is then reviewed by the Managing Director, after which the budget is submitted to the Board for formal approval.
- Regular visits to the Operating Centres by the Managing Director and senior management whenever appropriate.
- Proposals for major capital expenditure and investment by the Group are reviewed and approved by the Board of Directors. All other purchases and payments are approved according to formalised limits of authority.
- The Remuneration Committee evaluates and reviews the remuneration packages of the executive directors and senior management.
- The Audit Committee reviews the internal audit plan for the year, and reviews and holds discussions on the actions taken on internal control issues identified in the reports prepared by the Internal Auditor.
- Regular management meetings.

# ADEQUACY AND EFFECTIVENESS OF THE GROUP'S RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM

The Board has reviewed the adequacy and effectiveness of the Group's risk management and internal control system for the year under review and up to the date of approval of this statement for inclusion in the Annual Report, and is of the view that the risk management and internal control system is satisfactory and there were no material internal control failures nor have any of the reported weaknesses resulted in material losses or contingencies during the financial year under review.

For the period under review, the Managing Director and the Group Accountant have provided assurance to the Board that to the best of their knowledge, the Group's risk management and internal control system are operating adequately and effectively in all material aspects.

#### **REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS**

In accordance with paragraph 15.23 of the Bursa Malaysia Securities Berhad Main Market Listing Requirements, the external auditors have reviewed this Statement for inclusion in the Annual Report of the Group for the year ended 31 December 2020 and reported to the Board that nothing has come to their attention that caused them to believe that the Statement which is intended to be included in the annual report is not prepared, in all material respects, in accordance with the disclosures required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, nor is the Statement factually inaccurate.

This Statement on Risk Management and Internal Control is made in accordance with the resolution of the Board dated 23 February 2021.

# Audit Committee Report

The Board of Directors ("Board") of MHC Plantations Bhd is pleased to present the report of the Audit Committee ("AC") for the financial year ended 31 December 2020 in compliance with Paragraph 15.15 of the Main Market Listing Requirement ("MMLR") of Bursa Malaysia Securities Berhad ("Bursa Securities").

#### Members of the Committee

The AC comprises the following three (3) members, all of whom are Non-Executive Directors with all of them being Independent Directors, which complies with Paragraph 15.09(1) of the MMLR of Bursa Securities:

Mr. Chan Kam Leong	_	Chairman, Independent Non-Executive Director
Puan Wan Salmah Binti Wan Abdullah	_	Member, Independent Non-Executive Director
Mr. Heng Beng Fatt	_	Member, Independent Non-Executive Director

One of the members, Mr. Heng Beng Fatt is a member of the Malaysian Institute of Accountants which complies with Paragraph 15.09(1)(c)(i) of the MMLR of Bursa Securities and is in line with Practice 8.1 under the Malaysian Code on Corporate Governance ("the Code"). No Alternate Director is appointed as a member of the AC.

The detailed profiles of all the members of the AC are shown in the Directors' Profile.

#### Number of Meetings and Details of Attendance

The AC met four (4) times during the financial year ended 31 December 2020 to conduct and discharge its functions in accordance with its Terms of Reference. The Group Accountant and representatives of the internal and external auditors were invited to attend the AC meetings conducted during the financial year. The attendance record of each member is as follows:

Audit Committee Members	Number of Meetings Attended
Mr. Chan Kam Leong	4 of 4
Puan Wan Salmah Binti Wan Abdullah	4 of 4
Mr. Heng Beng Fatt	4 of 4

The terms of reference of Audit Committee can be found at the Company's website at www.mhc.com.my

#### Summary of Work For the Financial Year

The works of the AC during the financial year are as summarised below:

- (a) Reviewed the unaudited quarterly Group results prior to recommending them to the Board for approval for announcement to Bursa Securities;
- (b) The AC has received a special notice dated 22 June 2020 from Dato' Mah Pooi Soo Realty Sdn. Bhd. ("MPSR") of their intention to nominate Messrs PKF for appointment as Auditors of MHC, to replace the outgoing Auditors, Messrs Ernst & Young PLT who have expressed that they did not wish to seek for re-appointment.

The AC having assessed the qualification and capabilities of several audit firms (including their reputation and credentials and experience, firm's competitive advantage, qualification and independence of its professional), then recommended to the Board for the appointment of Messrs PKF as the new Auditors, in place of Messrs Ernst & Young PLT for shareholders' approval;

- (c) Reviewed prior to the commencement of audit, the external auditors' scope of engagement, their audit plan and approach and their request for any increase in audit fees;
- (d) Reviewed and discussed with the external auditors the updates or new developments on accounting standards issued by the Malaysian Accounting Standards Board and the Company's compliance with the applicable standards;

Audit Committee Report (cont'd)

#### Summary of Work For the Financial Year (cont'd)

- (e) Reviewed with the external auditors the results of their audit, their audit report and management letters relating to the audit, their internal control recommendations in respect of control weaknesses noted in the course of their audit and the management's responses thereto. The Committee also appraised the adequacy of actions and measures subsequently taken by the management to address the issues and recommended, where relevant, further improvement measures;
- (f) Reviewed the draft audited financial statements prior to recommending the same to the Board for approval;
- (g) Reviewed the statement on risk management and internal control before recommending to the Board for approval for inclusion in the Annual Report;
- (h) Considered the proposals received for the internal audit function and recommended the re-appointment of the internal auditors;
- (i) Reviewed the related party transactions that had arisen prior to recommending them to the Board for approval;
- (j) Reviewed the internal auditor's reports, their recommendations and the management responses. Improvement actions in the area of internal controls, systems and efficiency enhancements suggested by the internal auditor were discussed together with management;
- (k) Carried out an annual review of the performance of the Internal Auditor, including assessment of their suitability and independence in performing their obligation; and
- (I) Followed up on the implementation actions taken by management in respect of the internal auditor's recommendations.

#### **Internal Audit Function**

The Group's internal audit function is carried by an independent external firm of professional Internal Auditors, namely KPMG Management & Risk Consulting Sdn Bhd. The Internal Audit Function adopts a risk-based approach with focus on effective risk management practices. The role of the internal audit function, which reports directly to the AC, is to support the AC by providing it with independent and objective reports on the adequacy and effectiveness of the system of internal control and the extent of compliance with the procedures and by recommending ways to rectify shortfall and improve the existing control environment in relation to the Group's operations. It submits its findings and recommendations to the AC and senior management of the Group.

During the financial year under review, the Internal Audit conducted a series of audit assignments on operating segments of the Group. Internal audit activities carried out for the financial year include, inter alia, the following:

- FFB harvesting and collections;
- Security and upkeep of estate; and
- Job contracting and general purchases

The audit report incorporating the internal auditors' findings and recommendations with regard to the system operations and control weaknesses noted in the course of their audit and the management's responses thereto were subsequently submitted to the AC. The action plans were then followed up during subsequent internal audits with implementation status reported to the AC for their attention.

The cost incurred for the internal audit function of the Group for the financial year ended 31 December 2020 was RM23,600.

## **Additional Compliance Information**

Pursuant to the Listing Requirements of Bursa Malaysia Securities Berhad for the year ended 31 December 2020

#### - Utilisation of Proceeds

The Company did not raise any funds through any corporate proposal during the financial year.

#### - Auditors' Remuneration

The audit fee and non-audit fee paid and payable to the External Auditors by the Group and of the Company for the financial year ended 31 December 2020 are as follows:

	Group RM	Company RM
Audit fee Non-Audit fee	317,000 52,000	55,000 7,500
	369,000	62,500

#### Material Contracts awarded to Directors and Substantial Shareholders

There were no material contracts entered into by the Company and its subsidiaries involving directors and major shareholders' interests still subsisting at the end of the financial year except for those disclosed under related party transaction on page 142 to 144 of this Annual Report.

#### Contracts Relating to Loans

There were no contracts relating to loans entered into by the Company and its subsidiaries involving directors' and major shareholders' interests during the financial year ended 31 December 2020.

#### - Recurrent Related Party Transactions

The Company incurs related party transaction in the ordinary course of business with a private company connected to certain directors. The total amount involved falls below the threshold requiring announcements and/or shareholders' mandate.

4 Annual Report 2020

# **Directors' Report**

The Directors hereby submit their report and the audited financial statements of the Group and of the Company for the financial year ended 31 December 2020.

#### **Principal activities**

The principal activities of the Company are oil palm cultivation, investment holding and the operation of a hotel.

The principal activities of the subsidiaries are set out in Note 17 to the financial statements.

#### Results

	Group RM	Company RM
Profit for the financial year attributable to: Owners of the Company Non-controlling interests	13,673,659 8,830,652	7,745,366
	22,504,311	7,745,366

#### **Reserves and provisions**

There were no material transfers to or from reserves and provisions during the financial year except as disclosed in the financial statements.

#### Dividends

Since the end of the previous financial year, the Company declared single-tier interim dividend of 1.5 sen per ordinary share totalling RM2,948,160 in respect of the financial year ended 31 December 2020 and paid on 12 June 2020.

On 7 April 2021, the Directors approved an single-tier interim dividend of 2.0 sen per ordinary share in respect of the next financial year ending 31 December 2021 on 196,543,970 ordinary shares, amounting to a dividend payable of RM3,930,879 payable on 21 May 2021. Furthermore, the Directors also approved a one-off payment of an additional special dividend of 2.0 sen per ordinary share for the financial year ending 31 December 2021.

The rationale for the payment of a special dividend was:

- 1. To reward our loyal shareholders for keeping faith in MHC Plantations Bhd despite the uncertain economic situation; and
- 2. To hopefully help in mitigating any difficulties our shareholders might currently be facing as a result of the economic turmoil caused by COVID-19.

The financial statements for the current financial year do not reflect this proposed dividend. Such dividend will be accounted for in shareholders' equity as an appropriation of retained profits in the next financial year ending 31 December 2021.

#### Directors

The Directors who have held office during the financial year and up to the date of this report are:

Dato' Seri Mah King Seng\* Tan Sri Dr. Mah King Thian\* Chan Kam Leong Wan Salmah Binti Wan Abdullah Heng Beng Fatt Mah Li-Na (Alternate Director to Dato' Seri Mah King Seng) Dr. Jordina Mah Siu Yi (Alternate Director to Tan Sri Dr. Mah King Thian)

\* These Directors are also Directors of the subsidiaries of the Company.

Pursuant to Section 253 of the Companies Act, 2016 in Malaysia, the Directors of subsidiaries during the financial year and up to the date of this report, who are not also the Directors of the Company, are as follows:

Choong Pak Wan Datin Seri Ooi Ah Thin Datuk Chua Kim Yin Datuk Palpanaban a/I Devarajoo (D.P. Naban) Derrick Martin De Souza Jack Tian Hock Tan Koh Zheng Kai Lee Chong Hoe Mustapha Bin Mohamed Ng Choo Beng Soong Swee Koon Lee Nyuk Choon @ Jamilah Ariffin Andree Alexander Funk

#### Directors' interests in shares

The holdings and deemed holdings in the ordinary shares of the Company and its related corporations (other than wholly-owned subsidiaries) of those who were Directors at the end of the financial year, as recorded in the Register of Directors' Shareholding kept under Section 59 of the Companies Act, 2016 in Malaysia are as follows:

	Number of ordinary shares			
	At			At
Name of Director	1.1.2020	Bought	Sold	31.12.2020

# Interest by virtue of shares held by spouse.

#### Directors' interests in shares

By virtue of their interests in the Company, Dato' Seri Mah King Seng and Tan Sri Dr. Mah King Thian are deemed to have interests in shares in its related corporations during the financial year to the extent of the Company's interest in accordance with Section 8 of the Companies Act, 2016.

The other Directors who held office at the end of the financial year did not have any interest in shares in the Company and its subsidiary companies.

#### **Directors' benefits**

Since the end of the previous financial year, no Director of the Company has received nor become entitled to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by Directors as disclosed in the financial statements or the fixed salary of a full-time employee of the Company or related corporations) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest, except as disclosed in Note 32 to the financial statements.

There were no arrangements during and at the end of the financial year, which had the object of enabling the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of the Company or any other body corporate.

#### **Directors' remuneration**

The remuneration paid to or receivable by the Directors of the Group and Company during the financial year is amounted to RM5,437,252 and RM479,600 respectively.

#### Indemnity and insurance for Directors, officers and auditors

During the financial year, the Company has in force a Directors' and officers' liability insurance under which the Directors are indemnified up to a limit of RM2.5 million in respect of all costs, charges, expenses or liabilities which they may incur in or about the execution of their duties to the Group or as a result of duties performed by the Directors on behalf of the Group. Such indemnity remain in force as at the end of the financial year. The total insurance premium paid for directors and officers of the Group is RM4,725.

There was no indemnity given to or liability insurance effected for the auditors of the Group and of the Company during the financial year.

#### **Subsidiaries**

The details of the Company's subsidiaries are disclosed in Note 17 to the financial statements.

#### Issues of shares and debentures

The Company did not issue any new shares or debentures during the financial year.

#### **Options granted over unissued shares**

No options were granted to any person to take up unissued shares of the Company during the financial year.

Annual Report 2020

#### Other statutory information

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps to ascertain that:

- (i) all known bad debts had been written off and adequate allowance had been made for doubtful debts; and
- (ii) all current assets have been stated at the lower of cost and net realisable value.

At the date of this report, the Directors are not aware of any circumstances:

- (i) which would render it necessary to write off any bad debts, or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- (ii) which would render the value attributed to the current assets in the financial statements of the Group and of the Company misleading; or
- (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- (iv) not otherwise dealt with in this report or the financial statements, which would render any amount stated in the financial statements of the Group and of the Company misleading.

#### Other statutory information (cont'd)

As at the date of this report, there does not exist:

- (i) any charge on the assets of the Group and of the Company that has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Group and of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Group and of the Company has become enforceable, or is likely to become enforceable within the period of twelve (12) months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Group and of the Company for the financial year ended 31 December 2020 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of the financial year and the date of this report.

#### Significant and subsequent events

Details of significant and subsequent events are disclosed in Note 38 to the financial statements.

#### Auditors

The auditors, PKF, have indicated their willingness to continue in office.

During the financial year, the total amount of fees paid to or receivable by the auditors as remuneration for their services as auditors of the Group and the Company are amounted to RM382,342 and RM55,000 respectively.

Signed on behalf of the Board in accordance with a resolution of the Directors,

**Tan Sri Dr. Mah King Thian** Director Dato' Seri Mah King Seng Director

Dated 20 April 2021

### Statement by Directors

Pursuant to Section 251(2) of the Companies Act 2016

In the opinion of the Directors, the accompanying financial statements set out on pages 71 to 162 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia so as to give a true and fair view of the financial positions of the Group and of the Company as at 31 December 2020 and of their financial performances and cash flows for the financial year ended on that date.

Signed on behalf of the Board in accordance with a resolution of the Directors,

**Tan Sri Dr. Mah King Thian** Director Dato' Seri Mah King Seng Director

Dated 20 April 2021

# **Statutory Declaration**

Pursuant to Section 251(1)(b) of the Companies Act 2016

I, CHAN KIM MENG, being the Officer primarily responsible for the financial management of MHC PLANTATIONS BHD., do solemnly and sincerely declare that to the best of my knowledge and belief, the accompanying financial statements set out on pages 71 to 162 are in my opinion correct, and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act, 1960 in Malaysia.

Before me,

Kong Wai Ngee (A213) Pesuruhjaya Sumpah COMMISSIONER FOR OATHS

**Independent Auditors' Report** 

to the members of MHC Plantations Bhd. (Incorporated in Malaysia)

#### **REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS**

#### Opinion

We have audited the financial statements of MHC PLANTATIONS BHD., which comprise the statements of financial position as at 31 December 2020 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 71 to 162.

In our opinion, the accompanying financial statements give a true and fair view of the financial positions of the Group and of the Company as at 31 December 2020, and of their financial performances and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

#### **Basis for Opinion**

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants* (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

#### Key Audit Matters (cont'd)

#### Area of focus

How our audit addressed the key audit matter

# Impairment testing of property, plant and equipment

As highlighted in Note 15 to the financial statements, the carrying value of property, plant and equipment of the Group was RM507 million as at 31 December 2020.

The market capitalisation of the Group which amounted to RM156,252,456 as of 31 December 2020 is lower than the net tangible assets of the Group of RM460,566,530, gives indication that the carrying amounts of property, plant and equipment of the subsidiaries of the Group may potentially be higher than their recoverable amounts and therefore a formal estimate of their recoverable amounts may be required for impairment testing.

In carrying out the impairment testing of the property, plant and equipment, the Group considered whether the market capitalisation to book value shortfall can be reasonably related to specific subsidiaries or cash generating units within the Group. The Group has identified a few loss making subsidiaries exhibiting indicators of impairment and accordingly performed impairment testing on the property, plant and equipment of these subsidiaries.

The Group has engaged independent valuers to determine the recoverable amounts of property, plant and equipment of the subsidiaries that are exhibiting impairment indicators. These independent valuers use industry/market accepted valuation methodology and approaches to determine the fair value of the underlying asset. Due to the measurement of fair value being inherently judgemental and the carrying value of these assets being material to the Group, we have considered this to be a key audit matter. Our audit procedures included, among others:

- obtaining the valuation reports prepared by the independent valuers engaged by the Group;
- reviewing these reports for appropriateness of the methodology used and the reasonableness of the assumptions used; and
- assessing the competency, capabilities and objectivity of these independent valuers engaged by the Group.

#### Key Audit Matters (cont'd)

#### Area of focus

How our audit addressed the key audit matter

#### Impairment testing of goodwill

As highlighted in Note 20 to the financial statements, the carrying value of goodwill of the Group was RM43 million as at 31 December 2020.

In accordance with paragraph 10 of MFRS 136 *Impairment of Assets*, goodwill is required to be tested for impairment annually by comparing its carrying amount with its recoverable amount, irrespective of whether there is any indication that it may be impaired.

The Group estimated the recoverable amounts of the cash generating units ("CGUs") to which goodwill is allocated based on either fair value less costs of disposal ("FVLCD") or value in use ("VIU"). For FVLCD, the Group engaged independent valuers to determine the recoverable amount of certain significant property, plant and equipment relating to the CGUs that are exhibiting impairment indicators. These independent valuers use industry/market accepted valuation methodology and approaches to determine the fair value of the underlying asset. Due to the measurement of fair value being inherently judgemental and the carrying value of these assets being material to the Group, we have considered this to be a key audit matter.

Estimating the VIU involves estimating the future cash inflows and outflows that will be generated by the CGUs and discounting them at an appropriate rate. Significant judgements are required in determining the assumptions to be used to estimate the VIU of the CGUs as these assumptions are affected by expected future demand and economic conditions, which include estimates of future sales volumes, prices, operating costs, terminal value and the discount rate to use. Our audit procedures included, among others:

#### FVLCD

- obtaining the valuation reports prepared by the independent valuers engaged by the Group;
- reviewing these reports for appropriateness of the methodology used and the reasonableness of the assumptions used; and
- assessing the competency, capabilities and objectivity of these independent valuers engaged by the Group.

VIU

- assessing whether the assumptions on which the cash flow projections are based are consistent with past actual outcomes, in particular the assumptions about estimated future sales volumes, prices, operating costs, terminal value and possible variations in the timing of those future cash flows;
- assessing the discount rate used to determine the present value of the cash flows;
- testing the mathematical accuracy of the impairment assessment; and
- performing stress test and sensitivity analysis around the key inputs that are expected to be most sensitive to the recoverable amount.

#### Key Audit Matters (cont'd)

#### Area of focus

How our audit addressed the key audit matter

#### Classification between property, plant and equipment or IC Int. 12 Service Concession Arrangement ("IC 12") for biomass and biogas power plants

As highlighted in Note 39 to the financial statements, during the current financial year, the Group retrospectively restated its recognition of the biomass and biogas power plants under the subsidiaries, Cash Horse (M) Sdn. Bhd. ("CHSB") and Mistral Engineering Sdn. Bhd. ("MESB") respectively from IC 12 under financial assets to plant and equipment under MFRS 116 *Property, Plant and Equipment* ("MFRS 116"). This retrospective restatement resulted in an adjustment as at 31 December 2019 which, in aggregate, increased the carrying amount of property, plant and equipment by RM114 million and reduced the receivables by RM144 million with the resulting differences debited to retained profits, net of tax effects.

In affecting this adjustment, the Group reassessed whether it has control over significant residual values of the power plants after the end of the Renewable Energy Power Purchase Agreement ("REPPA") term in accordance with the relevant provisions of IC 12.

Firstly, the Group reassessed the facts surrounding the control over the power plants after the end of the REPPA term by scrutinising the relevant terms and conditions of the said agreement.

Based on this reassessment, the Group concluded that the grantor has no right or option to purchase the power plants at the end of the REPPA and therefore, ceases to have control over these power plants thereon. The Group could then unconditionally determine the manner of recovering their residual values, i.e. from disposal or continued usage.

Secondly, the Group forecasted the profitability from continued use of the power plants for nine (9) years after the end of the REPPA to determine whether it can benefit from significant residual value from its control over the power plants after the end of the REPPA. Key inputs and assumptions used by the Group in developing the forecast include value from internal usage of electricity produced, value from sale of by-products, useful life of the power plants, discount rate, overhaul and repair costs. The Group developed a quantitative threshold for the forecasted profitability to determine if there is significant residual value after the REPPA. Our audit procedures included, among others:

- obtaining the Group's reassessment of the REPPA and evaluating the appropriateness of their consideration of relevant terms and conditions of the REPPA for determining if the grantor has any control of the power plants after the end of the REPPA and agreed with their conclusion that the grantor has no right or option to purchase the power plants at the end of the REPPA;
- evaluating the commercial rationale of the Group's assessment of its capability to operate the power plants for a remaining nine (9) years after the end of the REPPA;
- evaluating and challenging where necessary the key inputs and assumptions used by the Group in the forecasted profitability and consulted with a power plant consultant on critical technical and scientific aspects of the power plants and obtaining the necessary corroborative evidence;
- evaluating the reasonableness of the quantitative threshold determined by the Group in concluding for significant residual value;
- performing sensitivity analysis by using a range of possible variations on the key inputs and parameters used in the forecasted profitability and determining if there is sufficient headroom; and
- evaluating the Group's assessment of the terms and conditions of the REPPA and availability of objective measurement for the recognition criteria for property, plant and equipment of future benefits and reliable measurement.

Key Audit Matters (cont'd)

Area of focus

How our audit addressed the key audit matter

Classification between property, plant and equipment or IC Int. 12 Service Concession Arrangement ("IC 12") for biomass and biogas power plants (cont'd)

On completion of the above reassessment exercise, the Group concluded that the power plants do not meet the criteria to be recognised under IC 12 and should perform assessment for recognition for MFRS 116 under property, plant and equipment based on its control over their future economic benefits and reliable measurement. Based on the Group's assessment of the terms and conditions of the REPPA, it concluded there is future economic benefits as the grantor is contracted to purchase a significant minimum electricity supply from the Group over the REPPA term and is subject to significant compensation if failing to do so. The power plants are also assessed to be reliably measured based on their contracted construction costs.

#### **Deferred tax assets**

Deferred tax asset of the Group with a carrying amount of RM6.8 million as at 31 December 2020 is associated with the biogas power plant operation of Mistral Engineering Sdn Bhd ("MESB"). Management has used significant judgement and estimates in determining the sufficiency of future taxable profits to utilise the deferred tax asset. Therefore, we had determined the realisability of the deferred tax asset to be a key audit matter.

As the generation of electricity and resulting profitability of the biogas power plant of MESB is dependent on sufficiency of liquid waste from processing of crude palm oil and kernel oil by the palm oil mill, management considered various factors to forecast future level of crude palm oil and kernel oil processing to support the biogas power plant. These factors include sufficiency of oil palm crops, market demand of crude palm oil and kernel oil and anticipated future prices of the commodities. Based on historical results of normalised level of crude palm oil and kernel oil processed, current market trends and susceptibility of the industry to global developments, management has forecasted sufficient future taxable profits to utilise the deferred tax asset.

Our audit procedures included, among others:

- obtaining management forecast on future taxable profits and held discussions with management on their judgements and assumptions in arriving at the forecast;
- examining the inputs used in the forecast such as price and quantity of electricity sale and evaluating its reasonableness based on the historical normalised level of crude palm oil and kernel oil processing, trend of electricity tariff rates, impact of latest developments affecting the palm oil industry and its ability to cope and others;
- performing sensitivity analysis on possible variations to the values of inputs used by management in their forecast and challenging where necessary on certain judgements used in arriving at these values; and
- considering if management had disregarded any contradictory evidence in forecasting the future taxable profits.

#### Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of the Directors for the Financial Statements**

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (ii) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.

#### Auditors' Responsibilities for the Audit of the Financial Statements (cont'd)

- (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- (iv) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (v) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- (vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

In accordance with the requirements of the Companies Act, 2016 in Malaysia, we report that the subsidiary of which we have not acted as auditors, is disclosed in Note 17 to the financial statements.

#### **Other Matter**

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report. The financial statements of the Group and of the Company as at 31 December 2019, were audited by another auditor whose report dated 3 June 2020, expressed an unmodified opinion.

#### Non-cash transactions

\* Acquisition of property, plant and equipment

During the financial year, the Group and the Company acquired property, plant and equipment inclusive of interest capitalized of RM1,065,208 and RMNil (2019: RM181,032 and RMNil) with an aggregate cost of RM19,792,165 and RM607,053 (2019: RM27,931,529 and RM402,311) of which RM1,499,100 and RMNil (2019: RM809,411 and RMNil) were acquired by means of hire purchase. Cash payments of RM17,227,857 and RM607,053 (2019: RM26,941,086 and RM402,311) were made to acquire property, plant and equipment.

\*\* Acquisition of investment property

During the financial year, the Group acquired investment property with an aggregate cost of RMNil (2019: RM673,826) by way of cash payments.

#### Reconciliation of liabilities arising from financing activities:

Group	1	Cash flows	Non-cash	31 December
2020	1 January RM	RM	changes RM	RM
Loans and borrowings Lease liabilities	131,263,129 4,831,978	(19,158,341) (1,225,791)	۔ 1,499,100	112,104,788 5,105,287
	136,095,107	(20,384,132)	1,499,100	117,210,075
2019				
Loans and borrowings Lease liabilities	137,142,307 5,318,860	(5,879,178) (1,296,293)	۔ 809,411	131,263,129 4,831,978
	142,461,167	(7,175,471)	809,411	136,095,107
Company	1 January	Cash flows	Non-cash changes	31 December
2020	RM	RM	RM	RM
Loans and borrowings	15,100,000	(2,500,000)	-	12,600,000
2019				
Loans and borrowings	15,100,000			15,100,000

### **Notes to the Financial Statements**

for the financial year ended 31 December 2020

#### 1. General information

The Company is a public limited liability company that is incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad. The principal activities of the Company are oil palm cultivation, investment holding and the operation of a hotel. The principal activities of the subsidiaries are set out in Note 17 to the financial statements.

The registered office and principal place of business of the Company are located at 55A, Medan Ipoh 1A, Medan Ipoh Bestari, 31400 Ipoh, Perak Darul Ridzuan and Kompleks Pejabat Behrang 2020, Jalan Persekutuan 1, 35900 Tanjung Malim, Perak Darul Ridzuan respectively.

These financial statements were authorised for issue by the Directors in accordance with a resolution of the Board of Directors dated

#### 2. Basis of preparation

#### (a) Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRSs") issued by Malaysian Accounting Standards Board ("MASB"), International Financial Reporting Standards ("IFRSs") and the requirements of the Companies Act, 2016 in Malaysia.

Annual Report 2020

#### (b) Basis of measurement

The significant accounting policies adopted by the Group and the Company are consistent with those adopted in previous financial year unless otherwise stated.

The financial statements of the Group and of the Company are prepared under the historical cost convention, unless otherwise indicated in the summary of significant accounting policies.

#### (c) Functional and presentation currency

The financial statements are prepared in Ringgit Malaysia (RM) which is the Company's functional currency. Each entity in the Group determines its own company's functional currency and items included in the financial statements of each entity are measured using that functional currency.

#### (d) Adoption of new and revised MFRS

During the financial year, the Group and the Company have adopted the following new standards and amendments to standards issued by the MASB that are mandatory for current financial year:

- Amendments to MFRS 3: Definition of a Business
- Amendments to MFRS 9, MFRS 139 and MFRS 7: Interest Rate Benchmark Reform
- Amendments to MFRS 101 and MFRS 108: Definition of Material
- Amendments to MFRS 101: Classification of Liabilities as Current or Non-current Deferral of Effective Date

The adoption of the amendments to standards did not have any significant impact on the financial statements of the Group and of the Company.

#### 2. Basis of preparation (cont'd)

#### (e) Standards issued but not yet effective

Certain new accounting standards and interpretations have been issued but not yet effective for 31 December 2020 reporting periods and have not been early adopted by the Group and the Company. These standards are not expected to have a material impact on the Group and the Company in the current or future reporting periods.

#### 3. Significant accounting judgements and estimates

The preparation of the Group's and the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

#### (a) Judgements made in applying accounting policies

In the process of applying the Group's and the Company's accounting policies, management has made the following judgement, apart from those involving estimations, which could have a significant effect on the amounts recognised in the consolidated financial statements.

#### (i) Operating segments

The segments disclosed in Note 37 to the financial statements have been determined by distinguishing the business activities from which the Group earns revenues and incurs expenses. The economic characteristics of the operating segments have been reviewed and operating segments have been grouped based on the reporting to the chief operating decision maker.

# (ii) Classification of biomass and biogas power plants under property, plant and equipment

The retrospective adjustment highlighted in Note 39 restating the biomass and biogas power plants from financial asset to property, plant and equipment involved significant judgement by the Group to determine they have control over significant residual value of the power plants at the expiry of the existing power purchase agreements with the grantor.

In making this judgements the Group assessed the relevant terms and conditions of the agreements and concluded the grantor has no right or option to acquire the power plants when the expiry of the agreements take effect.

Estimation and assumptions considered by the Group in determining significant residual value include commercial feasibility on internal use of the power plants, value of sale of by-products, useful life, discount rate and future overhaul costs.

#### 3. Significant accounting judgements and estimates (cont'd)

#### (b) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

#### (i) Depreciation of property, plant and equipment

The estimates for the residual values, useful lives and related depreciation charges for the property, plant and equipment are based on commercial factors which could change significantly as a result of technical innovations and competitors' actions in response to the market conditions.

The Group and the Company anticipate that the residual values of their property, plant and equipment will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable amount. The management estimates the useful lives of the property, plant and equipment to be within five (5) to ninety-nine (99) years. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

#### (ii) Income taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Group and the Company recognise tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax and deferred tax provisions in the year in which such determination is made.

#### (iii) Impairment of property, plant and equipment

The Group and the Company review their carrying amounts of property, plant and equipment at each reporting date to assess whether there is any indication of impairment. If any such indication exists, the Group and the Company make an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal ("FVLCD") and its value in use ("VIU").

The Group and the Company estimate the recoverable amounts of the cash-generating unit ("CGU") based on FVLCD and VIU. Estimating the VIU involves estimating the future cash inflows and outflows that will be generated by the CGUs and discounting them at an appropriate rate. In estimating the recoverable amounts of FVLCD, the Directors relied on independent professional valuers.

#### 3. Significant accounting judgements and estimates (cont'd)

#### (b) Key sources of estimation uncertainty (cont'd)

#### (iv) Impairment of goodwill

Goodwill is tested for impairment annually and at other times when such indicators exist. Impairment exists when the carrying value of an asset or CGU exceeds its recoverable amount, which is the higher of its FVLCD and its VIU. This requires an estimation of the recoverable amounts of the CGUs to which goodwill is allocated.

Estimating a VIU amount requires management to make an estimate of the expected future cash flows from the CGU and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Further details of the carrying value, key assumptions applied in the impairment assessment of goodwill and sensitivity analysis to changes in the assumptions are disclosed in Note 20 to the financial statements.

#### (v) Biological assets

The Group and the Company carry their biological assets at fair value with changes in fair value being recognised in profit or loss. The determination of the fair value of the biological assets requires the use of estimates on the projected harvest quantities and market price of fresh fruit bunches ("FFB") as at the reporting date. The carrying amount and key assumptions used to determine the fair value of the biological assets are further disclosed in Note 22 to the financial statements.

#### (vi) Carrying value of investments in subsidiaries

Investments in subsidiaries are reviewed for impairment annually in accordance with its accounting policy as disclosed in Note 4(n)(ii) to the financial statements, or whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Significant judgment is required in the estimation of the present value of future cash flows generated by the subsidiaries, which involves uncertainties and are significantly affected by assumptions and judgments made regarding estimates of future cash flows and discount rates. Changes in assumptions could significantly affect the carrying value of investments in subsidiaries.

#### (vii) Deferred tax assets and liabilities

Deferred tax implications arising from the changes in corporate income tax rates are measured with reference to the estimated realisation and settlement of temporary differences in the future periods in which the tax rates are expected to apply, based on the tax rates enacted or substantively enacted at the reporting date. While management's estimates on the realisation and settlement of temporary differences are based on the available information at the reporting date, changes in business strategy, future operating performance and other factors could potentially impact on the actual timing and amount of temporary differences realised and settled. Any difference between the actual amount and the estimated amount would be recognised in the statement of profit or loss and other comprehensive income in the period in which actual realisation and settlement occurs.

#### 3. Significant accounting judgements and estimates (cont'd)

#### (b) Key sources of estimation uncertainty (cont'd)

#### (vii) Deferred tax assets and liabilities (cont'd)

Deferred tax assets are recognised for all deductible temporary differences, unutilised tax credits and unutilised tax losses to the extent that it is probable that taxable profit will be available against which these items can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying amount of recognised and unrecognised deferred tax assets are disclosed in Note 19 to the financial statements.

Assumptions about generation of future taxable profits would depend on the achievability of projected profits and this requires judgement of the management. These assumptions and judgement are subject to risks and uncertainty, hence there is possibility that changes in circumstances will alter expectations, which may impact on the amount of deferred tax assets recognised.

#### (viii) Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

#### (ix) Leases

The measurement of the right-of-use asset and lease liability for leases where the Group and the Company are lessee requires the use of judgements and assumptions, such as lease term and incremental borrowing rate. In determining the lease term, the Group and the Company consider all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended. The incremental borrowing rate is the interest rate that the Group and the Company would have to pay to borrow over a similar term, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. Therefore, the incremental borrowing rate requires estimation, particularly when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group and the Company estimate the incremental borrowing rate using observable inputs when available and is required to make certain entity-specific estimates.

#### 4. Significant accounting policies

#### (a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the reporting date. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company.

#### (i) Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Control exists when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Company considers it has *de facto* power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return. Potential voting rights are considered when assessing control only when such rights are substantive.

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investments includes transaction costs.

#### (ii) Business combinations

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

For new acquisitions, the Group measures the cost of goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

For each business combination, the Group elects whether it measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

#### 4. Significant accounting policies (cont'd)

#### (a) Basis of consolidation (cont'd)

#### (iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### (iv) Loss of control

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as a financial asset depending on the level of influence retained.

#### (v) Non-controlling interests

Non-controlling interests at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the owners of the Company. Noncontrolling interests in the results of the Group is presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of the profit and loss and the comprehensive income for the year between non-controlling interests and the owners of the Company.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the noncontrolling interests even if doing so caused the non-controlling interests to have a deficit balance.

#### (vi) Transactions with non-controlling interests

Transactions with non-controlling interests are accounted for using the entity concept method, whereby, transactions with non-controlling interests are accounted for as transactions with owners.

On acquisition of non-controlling interests, the difference between the consideration and the Group' share of the net assets acquired is recognised directly in equity. Gain or loss on disposal to non-controlling interests is recognised directly in equity.

#### 4. Significant accounting policies (cont'd)

#### (b) Foreign currencies

#### (i) Functional and presentation currencies

The Group's consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency. Each entity in the Group determines its own company's functional currency and items included in the financial statements of each entity are measured using that functional currency.

#### (ii) Foreign currency transactions

Transactions in foreign currencies are measured in the respective functional currencies of the Group and the Company and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items denominated in foreign currencies measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are recognised in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. The foreign currency translation reserve is reclassified from equity to profit or loss of the Group on disposal of the foreign operation.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

#### (iii) Foreign operations

The assets and liabilities of foreign operations are translated into RM at the rate of exchange ruling at the reporting date and income and expenses are translated at exchange rates at the dates of the transactions. The exchange differences arising on the translation are taken the dates of the transactions. The exchange differences arising on the translation are taken directly to other comprehensive income. On disposal of a foreign operation, the cumulative amount recognised in other comprehensive income and accumulated in equity under foreign currency translation reserve relating to that particular foreign operation is recognised in the profit or loss.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the reporting date.

#### 4. Significant accounting policies (cont'd)

#### (c) Revenue recognition

Revenue from contracts with customers is recognised by reference to each distinct performance obligation promised in the contract with the customer when or as the Group and the Company transfer controls of the goods or services promised in a contract and the customer obtains control of the goods or services.

Revenue from contracts with customers is measured at its transaction price, being the amount of consideration to which the Group and the Company expect to be entitled in exchange for transferring promised goods or services to a customer, net of discounts. Generally, the Group and the Company receive short-term advances from its customers. Using the practical expedient in MFRS 15, the Group and the Company do not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised goods or services to the customer and when the customer pays for that goods or services will be one (1) year or less.

The transaction price is allocated to each distinct good or service promised in the contract. Depending on the terms of the contract, revenue is recognised when the performance obligation is satisfied, which may be a point in time or over time.

Annual Report 2020

87

The Group and the Company satisfy a performance obligation and recognises revenue over time, if one (1) of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's and the Company's performance as the Group and the Company perform.
- The Group's and the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The Group's and the Company's performance does not create an asset with an alternative use to the Group and the Company and the Group and the Company have an enforceable right to payment for performance completed to date.

If none of the above conditions are not met, the Group and the Company recognise revenue at the point in time at which the performance obligation is satisfied.

For performance obligations that the Group satisfies over time, the Group used output method in measuring progress of the services of supply of electricity. This is because for supply of electricity, the output transmitted to received by the customer is the best measure of transfer of service to the customer.

#### (i) Sales of plantation produce

The Group's and the Company's revenue from plantation and mill segments derived mainly from agricultural produce such as FFB, crude palm oil ("CPO"), palm kernel ("PK") and oil from empty fruit bunches.

Revenue from sales of agricultural produce is recognised net of discount and taxes at the point in time when control of the goods has been transferred to the customer.

The transaction price is allocated to each performance obligation based on the standalone selling price of the goods.

#### 4. Significant accounting policies (cont'd)

#### (c) Revenue recognition (cont'd)

#### (i) Sales of plantation produce (cont'd)

There is no element of financing present as the Group's and the Company's sale of goods are either on cash terms (immediate payments or advance payment not exceeding 30 days); or on credit terms of up to 30 days.

#### (ii) Sales of earth and stones

Sales of earth and stones are recognised upon delivery of products and customers' acceptance.

#### (iii) Supply of electricity

Revenue from supply of electricity is recognised over time as the Group simultaneously receives and consumes the electricity provided by the entity.

#### (iv) Revenue from hotel operations

Hotel operation income is recognised upon performance of services.

#### (v) Dividend income

Dividend income is recognised when the right to receive payment is established.

#### (vi) Other revenue

Revenue from other sources are recognised as follows:

- (a) interest income is recognised on a time proportion basis that reflects the effective yield on the assets; and
- (b) rental income is recognised on a time proportion basis.

#### (d) Employee benefits

The Group and the Company recognise a liability when an employee has provided service in exchange for employee benefits to be paid in the future and an expense when the Group and the Company consume the economic benefits arising from service provided by an employee in exchange for employee benefits.

#### (i) Short term benefits

Wages and salaries are usually accrued and paid on a monthly basis and are recognised as an expense, unless they relate to cost of producing inventories or other assets.

Paid absences (annual leave, maternity leave, paternity leave, sick leave, etc.) are accrued in each period if they are accumulating paid absences that can be carried forward, or in the case of non-accumulating paid absences, recognised as and when the absences occur.

Profit sharing and bonus payments are recognised when, and only when, the Group and the Company have a present legal or constructive obligation to make such payment as a result of past events and a reliable estimate of the obligation can be made.

#### 4. Significant accounting policies (cont'd)

#### (d) Employee benefits (cont'd)

#### (ii) Post-employment benefits (defined contribution plans)

The Group and the Company make statutory contributions to the approved provident funds and the contributions made are charged to profit or loss in the period to which they relate. When the contributions have been paid, the Group and the Company have no further payment obligations.

#### (e) Tax assets and liabilities

A current tax for current and prior periods, to the extent unpaid, is recognised as a current tax liability. If the amount already paid in respect of current and prior periods exceed the amount due for those periods, the excess is recognised as a current tax asset. A current tax liability/ (asset) is measured at the amount the entity expects to pay/(recover) using tax rates and laws that have been enacted or substantially enacted by the reporting date.

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit/(or tax loss). The exceptions for initial recognition differences include items of property, plant and equipment that do not qualify for capital allowances and acquired intangible assets that are not deductible for tax purposes.

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit/(or tax loss). The exceptions for the initial recognition differences include non-taxable government grants received and reinvestment allowances and investment tax allowances on qualifying plant and equipment.

A deferred tax asset is recognised for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

Deferred taxes are measured using tax rates/(and tax laws) that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred taxes reflects the tax consequences that would follow from the manner in which the Group and the Company expect, at the end of the reporting period, to recover or settle the carrying amount of its assets or liabilities.

At the end of each reporting period, the carrying amount of a deferred tax asset is reviewed and is reduced to the extent that it is no longer probably that sufficient taxable profit will be available to allow the benefit of a part or all of that deferred tax asset to be utilised. Any such reduction will be reversed to the extent that it becomes probably that sufficient taxable profit will be available.

A current or deferred tax is recognised as income and expense in profit or loss for the period, except to the extent that the tax arises from items recognised outside profit or loss. For an income or expense item recognised in other comprehensive income, the current or deferred tax expense or tax income is recognised in other comprehensive income. For items recognised directly in equity, the related tax effect is also recognised directly in equity.

#### 4. Significant accounting policies (cont'd)

#### (f) Earnings per share

The Group presents basic and diluted earnings per share data for its ordinary shares ("EPS"). Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

#### (g) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Subsequent to recognition, property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss. A revaluation deficit is recognised in profit or loss, except to the extent that it offsets an existing surplus on the same asset carried in the asset revaluation reserve.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. The revaluation surplus included in the asset revaluation reserve in respect of an asset is transferred directly to retained earnings on retirement or disposal of the asset.

Bearer plants comprise pre-cropping expenditure incurred from land clearing to the point of maturity. Such expenditure is capitalised and is amortised at maturity of the crop over the useful lives of the crop.

Direct expenditure incurred on quarry development is capitalised under quarry development expenditure. A portion of the indirect overheads which include general and administrative expenses and interest expense incurred on quarry development is similarly capitalised under quarry development expenditure until such time when the quarry commences operation.

Quarry development expenditure is amortised based on the proportion of stone volume extracted over the estimated volume of extractable stone from the quarry reserve.

Freehold land has an unlimited useful life and therefore is not depreciated.

Capital work-in-progress is not depreciated as these assets are not available for use. Depreciation will commence on these assets when they are ready for their intended use.

#### 4. Significant accounting policies (cont'd)

#### (g) Property, plant and equipment (cont'd)

Property, plant and equipment are depreciated on a straight-line basis to write off the cost of the property, plant and equipment over the term of their estimated use ful lives. The principal annual rates of depreciation used are as follows:

Long term leasehold land	63 – 99 years
Short term leasehold land	23 – 60 years
Bearer plants – oil palm	22 years
Oil mill and other buildings	10 – 50 years
Plantation infrastructure	63 – 99 years
Heavy equipment, plant and machinery	10 – 25 years
Furniture and fittings, office equipment, laboratory	
equipment, electrical installation, road and drainage	10 – 20 years
Motor vehicles	5 – 10 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

#### (h) Investment properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value which reflects market condition as at the reporting date. Fair value is arrived at by reference to market evidence of transaction prices for similar properties and is performed by registered independent valuers having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognised in profit or loss in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. For a transfer from owner-occupied property to investment property, the property is accounted for in accordance with the accounting policy for property, plant and equipment as disclosed in Note 4 (g) up to the date of change in use.

#### 4. Significant accounting policies (cont'd)

#### (i) Goodwill

Goodwill arising from a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired is allocated, from the acquisition date, to each of the Group's CGU that are expected to benefit from the synergies of the combination.

The CGU to which goodwill has been allocated is tested for impairment annually and whenever there is an indication that the CGU may be impaired, by comparing the carrying amount of the CGU, including the allocated goodwill, with the recoverable amount of the CGU. Where the recoverable amount of the CGU is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses recognised for goodwill are not reversed in subsequent periods.

Where goodwill forms part of a CGU and part of the operation within that CGU is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative fair values of the operations disposed of and the portion of the CGU retained.

#### (j) Biological assets

Biological assets comprise the produce growing on bearer plants. Biological assets are measured at fair value less costs to sell. Any gains or losses arising from changes in the fair value less costs to sell are recognised in profit or loss. Fair value is determined based on the present value of expected net cash flows from biological assets. The expected net cash flows are estimated using the expected output method and the estimated market price of the biological assets.

Biological assets are classified as current assets as it relates to produce on the bearer plants that are expected to be harvested at a date not more than 6 weeks after the reporting date.

#### (k) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and conditions are accounted for as follows:

#### (a) Palm oil products and quarry inventories

Costs of direct materials, direct labour, other direct charges and appropriate proportions of factory overheads. These costs are assigned on weighted average cost method.

#### (b) Consumable stores

Purchase costs and expenses in bringing them into store on a weighted average cost method.

#### 4. Significant accounting policies (cont'd)

#### (k) Inventories (cont'd)

#### (c) Nursery seedlings

Purchase costs and upkeep expenses on a weighted average cost method.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

#### (I) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### (i) Financial assets

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI) and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient, the Group and the Company initially measure a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group and the practical expedient are measured at the transaction price determined under MFRS 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's and the Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group and the Company commit to purchase or sell the asset.

For purposes of subsequent measurement, financial assets are classified in four (4) categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

#### 4. Significant accounting policies (cont'd)

#### (I) Financial instruments (cont'd)

#### (i) Financial assets (cont'd)

#### Financial assets at amortised cost (debt instruments)

The Group and the Company measure financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's and the Company's financial assets at amortised cost includes trade and other receivables and cash and bank balances.

#### Financial assets at fair value through OCI (debt instruments)

The Group and the Company measure debt instruments at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group and the Company have no debt instruments at fair value through OCI.

#### Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group and the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under MFRS 132 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

#### 4. Significant accounting policies (cont'd)

#### (I) Financial instruments (cont'd)

(i) Financial assets (cont'd)

#### Financial assets designated at fair value through OCI (equity instruments) (cont'd)

The Group and the Company elected to classify irrevocably their quoted and unquoted equity instruments under this category.

#### Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value encognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

The Group's and the Company's financial assets at fair value through profit or loss includes short-term investments.

#### 4. Significant accounting policies (cont'd)

- (I) Financial instruments (cont'd)
  - (i) Financial assets (cont'd)

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired; or
- The Group and the Company have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Group and the Company have transferred substantially all the risks and rewards of the asset, or (b) the Group and the Company have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group and the Company have transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group and the Company continue to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group and the Company also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group and the Company have retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group and the Company could be required to repay.

#### (ii) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities, within the scope of MFRS 9, are recognised in the statements of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument. Financial liabilities are classified as either financial liabilities at fair value through profit or loss or financial liabilities measured at amortised cost.

The subsequent measurement of financial liabilities depends on their classification as follows:

#### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

#### 4. Significant accounting policies (cont'd)

#### (I) Financial instruments (cont'd)

#### (ii) Financial liabilities (cont'd)

#### Financial liabilities at fair value through profit or loss (cont'd)

Financial liabilities held for trading include derivatives entered into by the Group and the Company that do not meet the hedge accounting criteria. Derivative liabilities are initially measured at fair value and subsequently stated at fair value, with any resultant gains or losses recognised in profit or loss. Net gains or losses on derivatives include exchange differences.

#### Financial liabilities measured at amortised cost

The Group's and the Company's financial liabilities measured at amortised cost include trade and other payables and loans and borrowings.

Trade and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Loans and borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group and the Company have an unconditional right to defer settlement of the liability for at least twelve (12) months after the reporting date.

For other financial liabilities, gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

A financial liability is derecognised when the obligation under the liability is extinguished. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

#### (m) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, at banks, deposits with licensed banks with maturity not exceeding three (3) months and short-term, highly liquid investments which are readily convertible to cash with short periods to maturity and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts, if any.

#### 4. Significant accounting policies (cont'd)

#### (n) Impairment

#### (i) Impairment of financial assets

The Group and the Company recognise an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expect to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two (2) stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group and the Company apply a simplified approach in calculating ECLs. Therefore, the Group and the Company do not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group and the Company have established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For debt instruments considered to have low credit risk, the Group and the Company apply the low credit risk simplification. At every reporting date, the Group and the Company evaluate whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group and the Company reassess the internal credit rating of the debt instrument.

In addition, the Group and the Company consider that there has been a significant increase in credit risk when contractual payments are more than one (1) year past due. It is the Group's and the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

The Group and the Company consider a financial asset in default when contractual payments are one (1) year past due. However, in certain cases, the Group and the Company may also consider a financial asset to be in default when internal or external information indicates that the Group and the Company are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group and the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

#### 4. Significant accounting policies (cont'd)

#### (n) Impairment (cont'd)

#### (ii) Impairment of non-financial assets

The Group and the Company assess at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group and the Company make an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGU).

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

Impairment losses are recognised in profit or loss except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless that asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase. Impairment loss on goodwill is not reversed in a subsequent period.

#### (o) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are classified as equity.

Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Dividends on ordinary shares are recognised as an appropriation of retained profits upon declaration, and are only taken up as liabilities upon the necessary approval being obtained.

#### 4. Significant accounting policies (cont'd)

#### (p) Treasury shares

When shares of the Group, that have not been cancelled, recognised as equity are reacquired, the amount of consideration paid is recognised directly in equity. Reacquired shares are classified as treasury shares and presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of treasury shares. When treasury shares are reissued by resale, the difference between the sales consideration and the carrying amount is recognised in equity.

#### (q) Borrowing costs

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale.

All other borrowings costs are recognised in profit or loss in the period they are incurred. Borrowing costs consist of interest and other costs that the Group and the Company incurred in connection with the borrowing of funds.

#### (r) Leases

#### (i) Classification

At inception of a contract, the Group and the Company assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right
  when it has the decision-making rights that are most relevant to changing how and
  for what purpose the asset is used. In rare cases where the decision about how and
  for what purpose the asset is used is predetermined, the customer has the right to
  direct the use of the asset if either the customer has the right to operate the asset;
  or the customer designed the asset in a way that predetermines how and for what
  purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group and the Company allocate the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Group and the Company are a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

#### 4. Significant accounting policies (cont'd)

#### (r) Leases (cont'd)

#### (ii) Lease term

In determining the lease term, the Group considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

#### (iii) Recognition and initial measurement

#### As a lessee

The Group and the Company recognise a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the respective Group and the Company entities' incremental borrowing rate. Generally, the Group and the Company use its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments less any incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Group and the Company are reasonably certain to exercise; and
- penalties for early termination of a lease unless the Group and the Company are reasonably certain not to terminate early.

The Group and the Company exclude variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Group and the Company have elected to use the recognition exemption that permits entities not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of twelve (12) months or less and leases of low-value assets. The Group and the Company recognise the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### 4. Significant accounting policies (cont'd)

(r) Leases (cont'd)

#### (iii) Recognition and initial measurement (cont'd)

#### As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease.

If an arrangement contains lease and non-lease components, the Group applies MFRS 15 to allocate the consideration in the contract based on the stand-alone selling prices.

When the Group is intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group and applies the exemption described above, then it classifies the sublease as an operating lease.

#### (iv) Subsequent measurement

#### As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Group's and the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Group and the Company change its assessment of whether it will exercise a purchase, extension or termination option.

The Group and the Company reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Group and the Company affect whether the Group and the Company are reasonably certain to exercise an option not previously included in the determination of lease term, or not to exercise an option previously included in the determination of lease term. A revision in lease term results in remeasurement of the lease liabilities.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### 4. Significant accounting policies (cont'd)

(r) Leases (cont'd)

#### (iv) Subsequent measurement (cont'd)

#### As a lessor

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of "other operating income".

#### (s) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due.

Financial guarantee contracts are recognised initially as a liability at fair value, net transaction costs. Subsequent to initial recognition, financial guarantee contracts are recognised as income in profit or loss over the period of the guarantee. If the debtor fails to make payment relating to financial guarantee contract when it is due and the Group, as the issuer, is required to reimburse the holder for the associated loss, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount initially recognised less cumulative amortisation.

#### (t) Provisions

Provisions are recognised when the Group and the Company have present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations, and a reliable estimate of the amount can be made.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision will be reversed. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability and the present value of the expenditure expected to be required to settle the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

#### (u) Contingencies

A contingent liability or asset is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised in the statements of financial position of the Group.

#### 4. Significant accounting policies (cont'd)

#### (v) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the chief operating decision maker ("CODM"), which in this case is the Group Managing Director, to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

#### (w) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transactions to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### **13.** Income tax expense (cont'd)

A reconciliation of income tax expense applicable to profit before taxation at the statutory income tax rate to income tax expense at the effective income tax rate of the Group and the Company is as follows:

	Gro	oup Restated	Company			
	2020 RM	2019 RM	2020 RM	2019 RM		
Profit before taxation	31,198,702	9,400,136	7,167,934	3,636,049		
Taxation at Malaysian statutory tax rate of 24% (2019: 24%) Non-deductible expenses Non-deductible income Effect of deductible temporary difference but not recognised as	7,487,689 1,811,839 (27,467)	2,256,032 1,493,194 (223,832)	1,720,304 225,474 (1,858,761)	872,652 271,227 (1,451,118)		
deferred tax assets	(642,517)	628,136	(87,017)	243,256		
	8,629,544	4,153,530	-	(63,983)		
Under/(Over) provision in prior years: - Current taxation - Deferred tax (Note 19)	131,827 (66,980) 64,847	155,693 1,415,775 1,571,468	(577,432)	54,166 54,166		
	8,694,391	5,724,998	(577,432)	(9,817)		

#### 14. Earnings per share

(a) Basic

Basic loss per share amounts are calculated by dividing loss for the financial year, net of tax, attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial year.

	Group				
	2020 RM	Restated 2019 RM			
Profit net of tax attributable to owners of the Company	13,673,659	2,500,648			
Weighted average number of ordinary shares in issue	196,543,970	196,543,970			
Basic earnings per share (sen)	6.96	1.27			

(b) Diluted

There is no dilution in the earnings per share of the current and previous year end as there are no dilutive potential ordinary shares outstanding at the end of the reporting period.

Interest expense (Note 11)	1,065,208	181,032	-	-	

#### 16. Investment properties

	Group		Com	pany
Fair value	31.12.2020	31.12.2019	31.12.2020	31.12.2019
	RM	RM	RM	RM
At 1 January	49,923,826	49,250,000	1,250,000	1,250,000
Additions	-	673,826	-	-
Disposal	(4,660,000)	-	-	-
At 31 December	45,263,826	49,923,826	1,250,000	1,250,000

The category of the fair value of investment properties are further disclosed in Note 35 to the financial statements.

Investment properties are stated at fair value, which has been determined based on valuations performed during the financial year by independent professional valuers using sales comparison method that makes reference to the sales prices of comparable properties in close proximity which are adjusted for differences in key attributes such as property size and location. The most significant input into this valuation approach is price per square foot of comparable properties.

		Range of adjustment fact	
		31.12.2020	31.12.2019
Valuation techniques	Significant unobservable inputs	%	%
Market comparable approach	Difference in size and bulk discount	5 – 10	5 – 10

The followings are recognized in profit or loss in respect of investment properties:

	Group and Company		
	31.12.2020	31.12.2019	
	RM	RM	
Rental income	76,230	73,920	
Direct operating expenses	(3,499)	(3,719)	

For all investment properties that are measured at fair value, the current use of the properties are considered the highest and best use.

	(42,135,775)	(41,096,921)	(38,941,564)	-	(577,432)	

#### 19. Deferred tax assets/(liabilities) (cont'd)

No deferred tax asset has been recognised for the following items:

	Group			Company		
	31.12.2020 RM	Restated 31.12.2019 RM	Restated 1.1.2019 RM	31.12.2020 RM	31.12.2019 RM	
Unabsorbed capital allowances Unutilised tax losses	1,709,368 26,799,823	438,705 31,026,720	578,222 5,411,802	۔ 1,134,733	- 3,903,269	
	28,509,191	31,465,425	5,990,024	1,134,733	3,903,269	
Tax rate	24%	24%	24%	24%	24%	
Deferred tax assets not recognise	6,842,205	7,551,702	1,437,606	272,336	936,785	

The unabsorbed capital allowances disclosed above are available indefinitely for offsetting against future taxable profits of the Group whereas the unutilised losses is available to be carried forward up to the maximum of seven (7) years, subject to no substantial change in shareholdings of these subsidiaries under the Income Tax Act, 1967 and guidelines issued by the tax authority.

Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Group and the Company can utilise the benefits.

#### 20. Goodwill on consolidation

	Gro	Group		
	31.12.2020 RM	31.12.2019 RM		
Goodwill				
At 1 January/31 December	43,867,118	43,867,118		

#### Impairment testing of goodwill

Goodwill which arose from business combinations has been allocated to CGUs identified according to the individual subsidiaries and the Sub Group, all of which are principally involved in plantation activities for impairment testing.

The recoverable amount of the above CGUs has been determined based on a combination of FVLCD where the management relied on independent professional valuers using comparison method valuation and VIU calculations using cash flow projections approved by management covering a five-year period.

#### 20. Goodwill on consolidation (cont'd)

The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

	Gr	Group		
	31.12.2020 RM	31.12.2019 RM		
CPO per metric tonne ("MT") (RM) PK per MT (RM) Discount rates	, ,	2,078 – 2,358 1,400 – 1,750 10%		

- (i) CPO and PK prices are based on the current market outlook of product prices relating to the CGU.
- (ii) Discount rates used for cash flows discounting purpose is the Group's weighted average cost of capital.

For CGUs determined based on FVLCD, the recoverable values were determined by the professional valuers on plantation land using market comparison approach that reflects recent transacted prices of similar properties. These prices are adjusted for factors of size and location by a range of 5% - 10% to arrive at a range of valuation of RM30,000 to RM34,000 per acre for plantation land. There are no CGUs determined based on FVLCD in prior year.

# Annual Report 2020

#### Sensitivity to changes in assumptions

With regard to the assessment of value-in-use of the plantation segment, management believes that any reasonable possible change in any of the above key assumptions applied is unlikely to materially cause the recoverable amounts to be lower than the carrying values of the CGU.

#### 21. Inventories

	18,533,387	25,355,182	210,336	186,371	

#### 21. Inventories (cont'd)

During the financial year, the amount of inventories recognised as an expense in cost of sales of the Group and the Company were RM26,724,635 and RM375,353 (2019: RM25,012,312 and RM357,100).

Additions in nurseries during the financial year included the following:

	Gro	Group		pany
	31.12.2020 RM	31.12.2019 RM	31.12.2020 RM	31.12.2019 RM
Employee benefits expense (Note 8)	162,539	386,895	14,539	25,895

#### 22. Biological assets

	Gro	Group		pany
At fair value	31.12.2020	31.12.2019	31.12.2020	31.12.2019
	RM	RM	RM	RM
At 1 January	2,737,438	1,386,106	213,058	73,500
Fair value gain (Note 6)	526,578	1,351,332	98,828	139,558
At 31 December	3,264,016	2,737,438	311,886	213,058

The biological assets of the Group and the Company comprise fresh fruit bunches ("FFB") prior to harvest. To arrive at the fair value of FFB, the management has considered the oil content of the unripe FFB and derived at the assumption that the net cash flows to be generated from FFB prior to more than six (6) weeks to harvest is negligible, therefore quantity of unripe FFB on bearer plants of up to six (6) weeks prior to harvest was used for valuation purpose. The value of the unripe FFB was estimated to be approximately 17% for FFB that are five (5) to six (6) weeks prior to harvest, 50% for FFB that are three (3) to four (4) weeks prior to harvest and 83% for FFB that are one (1) to two (2) weeks prior to harvest. The quantity of unharvested FFB of the Group and the Company as at 31 December 2020 included in the fair valuation of FFB were 13,403 and 1,101 metric tonne (2019: 15,760 and 1,054 metric tonne) respectively. The net present value of cash flows is then determined with reference to the market value of crude palm oil at the date of harvest, adjusted for freight and other costs to sell at the point of harvest.

The valuation model adopted by the Group is a discounted cash flow model which includes all cash inflows, cash outflows and imputed contributory asset charges where no actual cash flows associated with the use of assets essential to the agricultural activity are accounted for. The net present value of cash flows is then determined with reference to the market value of crude palm oil at the date of harvest, adjusted for freight, extraction rates, production, transportation, contributory asset charges and other costs to sell at the point of harvest. Changes to the assumed prices of the FFB and tonnage included in the valuation will have a direct effect on the reported valuation.

#### 22. Biological assets (cont'd)

The relationship of the unobservable inputs to changes in fair value, with all other variables held constant is as follows:

		Fair value	gain/(loss)	
	31.12	2.2020	31.12	2.2019

Total trade and other receivables	23,025,573	20,124,563	16,552,391	3,260,540	1,234,291

Trade receivables are non-interest bearing and are generally on 7 to 30 days (2019: 7 to 30 days) terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

Amounts due from subsidiaries are unsecured, interest bearing and repayable on demand. The interest bearing advances are subject to interest charge based on recovery of borrowing cost incurred by the Company.

During the financial year, the following losses/(gains) were recognised in profit or loss in relation to impaired financial assets:

Group	Trade receivables RM	Other receivables RM	Total RM
At 1 January 2019	485,847	1,005,150	1,490,997
Charge for the financial year (Note 7)	1,033	70,422	71,455

Company		
Distributable Retained profits	16,732,082	11,934,876
<b>Non-distributable</b> Fair value adjustment reserve	(80,159)	(49,519)
	16,651,923	11,885,357

#### **Retained profits**

The Group's and the Company's policy is to treat all gains and losses that pass through the statements of profit or loss and other comprehensive income (i.e. non-owner transactions or events) as revenue reserves. Other than retained profits, all other revenue reserves are regarded as non-distributable in the form of cash dividends to shareholders. Accumulated losses are the opposite of retained profits and when an entity is in an accumulated loss position, it is prohibited from distributing cash dividends to shareholders.

#### **Capital reserve**

The distributable capital reserve comprises mainly gains arising from disposal of property, plant and equipment and investments whereas the non-distributable capital reserve represents amount capitalised for bonus issue from post-acquisition reserve of a subsidiary company.

#### **Other reserve**

Other reserve represents the difference between the adjusted carrying amount of the non-controlling interests and the fair value of the consideration paid.

#### **Revaluation reserve**

Revaluation reserve represents net surplus arising from the revaluation of certain subsidiary companies' freehold land, buildings and biological assets in 1976, 1982 and 1988 respectively. On transition to MFRS, the Group opted for the cost model as its accounting policy for measurement of property, plant and equipment, and treated the carrying values of the previously revalued properties at the date of transition as deemed cost.

On subsequent sale or retirement of these revalued properties, the attributable surplus remaining in the revaluation reserve will be transferred to distributable reserve.

#### 27. Reserve (cont'd)

#### Fair value adjustment reserve

Fair value adjustment reserve represents the cumulative fair value changes, net of tax, of equity instrument until they are disposed of or impaired.

#### Foreign currency translation reserve

The foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign subsidiary companies whose functional currencies are different from that of the Group's presentation currency.

	112,104,788	131,263,129	12,600,000	15,100,000

The loans and borrowings are secured by the followings:

#### (i) Loan at Cost of Finance ("COF") + 1.10% p.a.

One of the loans is secured by legal charges over leasehold agricultural lands, specific debenture over the land together with the fixture and fittings of a subsidiary company as disclosed in Note 15 to the financial statements, corporate guarantee given by the Company and Credit Guarantee Corporation (M) Bhd ("CGC") under the Green Technology Financing Scheme ("GTFS"). An interest subsidy of 2% p.a. is granted to its subsidiary company under the GTFS.

Another loan is secured by legal charges over certain leasehold plantations, debentures incorporating fixed and floating charges over all the assets of subsidiary companies presently owned and subsequently acquired as disclosed in Note 15 to the financial statements and corporate guarantees given by the subsidiary companies.

#### (ii) Loan at COF + 1.125% p.a.

This loan is secured by legal charges over certain leasehold plantations together with the plant and machinery and oil mill of subsidiary companies, debentures incorporating fixed and floating charges over all the assets of subsidiary companies presently owned and subsequently acquired as disclosed in Note 15 to the financial statements and corporate guarantees given by the subsidiary companies.

#### 28. Loans and borrowings (cont'd)

#### (iii) Loan at COF + 1.50% p.a.

This loan is secured by legal charges over sub-divided land together with the power plant erected thereon of subsidiary companies, debentures incorporating fixed and floating charges over all the assets of the subsidiary companies as disclosed in Note 15 to the financial statements and corporate guarantees given by a subsidiary company and short term deposits with a licensed bank as further disclosed in Note 25 to the financial statements.

#### (iv) Revolving credit ("RC") at COF + 1.10% p.a.

This revolving credit is secured by legal charges over freehold agricultural land of the Company and leasehold lands of a subsidiary company and specific debenture over the land together with the fixture and fittings as disclosed in Note 15 to the financial statements.

#### (v) RC at Islamic Cost of Fund ("ICOF") + 1.20% p.a., COF + 1.125% p.a. and COF + 1.50% p.a.

This revolving credit is secured by legal charges over certain leasehold plantations together with the plant and machinery and palm oil mill of subsidiary companies, sub-divided land together with the power plant erected thereon of a subsidiary company, debentures incorporating fixed and floating charges over all the assets of subsidiary companies presently owned and subsequently acquired as disclosed in Note 15 to the financial statements and corporate guarantees given by the subsidiary companies and short term deposits with licensed bank as further disclosed in Note 25 to the financial statements.

#### 29. Lease liabilities

	Group		Com	bany
	31.12.2020 RM	31.12.2019 RM	31.12.2020 RM	31.12.2019 RM

More than five years	423,390	1,290,917	-	-
	5,105,287	4,831,978	9,599	33,240

The Group has lease contracts of land used in its operations as disclosed in Note 15 to the financial statements. Leases of land has lease terms of average ten (10) to thirty (30) years. The average discount rate implicit in the leases is 7.39% (2019: 7.39%) per annum.

#### 29. Lease liabilities (cont'd)

The table below describes the nature of the Group's leasing activities by type of right-of-use asset recognised in the statement of financial position:

Right-of- use asset	No. of right-of- use assets leased	Range of remaining term	Average remaining lease term	No. of leases with extension options	No. of leases with variable payment	No. of leases with termination option
Leasehold land	10	5 – 23 years	9 years	5	-	-

The leases of the Group and the Company are secured by a charge over the leased assets which consist of plant and machinery and motor vehicles as disclosed in Note 15 to the financial statements. These leases of the Group and the Company bear effective interest rate ranging from 4.36% to 7.12% and 7.04 (2019: 4.36% to 7.12% and 5.01 to 7.04%) per annum respectively.

There were no leases with residual value guarantee or leases which have yet to commence of which the Group and the Company have committed.

# Annual Report 2020

#### 30. Trade and other payables

	Group		Company	
	31.12.2020 RM	31.12.2019 RM	31.12.2020 RM	31.12.2019 RM

#### (b) Financial risk management

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk, and foreign currency risk.

The Board of Directors reviews and agrees on policies and procedures for the management of these risks, which are executed by Executive Committee. The audit committee provides independent oversight to the effectiveness of the risk management process.

The following sections provide details regarding the Group's and the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

#### (i) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty defaults on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including short-term investments and cash and bank balances), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's and the Company's objective are to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties.

It is the Group's and the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

As at the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

#### 34. Financial instruments (cont'd)

- (b) Financial risk management (cont'd)
  - (i) Credit risk (cont'd)

#### **Trade receivables**

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored.

At each reporting date, the Group and the Company assess whether any of the trade receivables are credit impaired.

The gross carrying amounts of credit impaired trade receivables are written off (either partially or full) when there is no realistic prospect of recovery. This is generally the case when the Group and the Company determine that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay amounts subject to the write-off. Nevertheless, trade receivables and contract asset that are written off could still be subject to enforcement activities.

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables is represented by the carrying amounts in the statements of financial position. The Group and the Company do not hold collateral as security.

The ageing analysis of the Group's and the Company's trade receivables as at the reporting date is as follows:

Group	Gross amount	Expected credit losses	Carrying value
31.12.2020	RM	RM	RM
Not past due	14,363,875	-	14,363,875
Past due: - less than 30 days - between 31 to 60 days - between 61 to 90 days - more than 90 days	465,754 9,892 21,199 344,613	(22) (3,116) (275,185)	465,732 9,892 18,083 69,428

31.12.2019				
Not past due	294,313	-	294,313	

Impairment for trade receivables is measured at an amount equal to lifetime excepted credit loss. The expected credit losses on trade receivables includes both individual impairment for those that show objective evidence of impairment (stage 3 loss) and collective impairment (stage 2 loss). Collective impairment has been provided using the provisional matrix based on historical loss experience of the respective entities in the Group with reference to past due status of the debtor, as follows:

	Expected cree 2020	dit loss rates 2019
Not past due	0%	0%
Past due: - between 31 to 60 days - between 61 to 90 days - between 91 to 120 days - more than 121 days	0% 0% 14% 94% - 100%	5% 5% 5% 6% – 100%

#### 34. Financial instruments (cont'd)

#### (b) Financial risk management (cont'd)

(i) Credit risk (cont'd)

#### Trade receivables (cont'd)

The expected credit loss rates are based on the historical loss rates experienced by each entity in the Group as adjusted for forward looking element as necessary.

There was no material expected credit loss for the Company's trade receivables as of the financial year end.

As at the reporting date, the Group and the Company have significant concentration of credit risk in the form of outstanding balance due from 6 and 2 (2019: 5 and 2) major customers representing 64% and 100% (2019: 69% and 87%) of the total trade receivables respectively.

#### Other receivables

For other receivables, a lifetime expected credit loss is assessed for those counterparties that show significant increase in credit risk as at the end of the reporting period, and impairment made based on objective evidence of impairment.

#### Inter-company advances

The Company provides advances to subsidiaries. The Company monitors the ability of the subsidiaries to repay the advances on an individual basis and considers advances to subsidiaries to have low credit risks.

The Company determines the probability of default for these advances individually using internal information available.

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position. Advances provided are not secured by any collateral or supported by any other credit enhancements.

#### Cash and cash equivalents

The cash and cash equivalents are held with banks and financial institutions. As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statements of financial position.

These banks and financial institutions have low credit risks. Consequently, the Group and the Company are of the view that loss allowance is not material and hence, it is not provided for.

#### (ii) Liquidity risk

Liquidity risk is the risk that the Group and the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

Annual Report 2020

#### 34. Financial instruments (cont'd)

#### (b) Financial risk management (cont'd)

#### (ii) Liquidity risk (cont'd)

As part of its overall liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position. As far as possible, the Group raises committed funding from financial institutions and balances its portfolio with some short term funding so as to achieve overall cost effectiveness.

The following table sets out the maturity profile of the Group's and the Company's financial liabilities as at the end of the reporting period based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on the rates at the end of the reporting period):

Group	Carrying amount	Contractual undiscounted cashflows	Within One (1) year	One (1) to Five (5) years	Over Five (5) years

#### 34. Financial instruments (cont'd)

#### (b) Financial risk management (cont'd)

#### (ii) Liquidity risk (cont'd)

The following table sets out the maturity profile of the Group's and the Company's financial liabilities as at the end of the reporting period based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on the rates at the end of the reporting period): (cont'd)

Company 31.12.2020	Carrying amount RM	Contractual undiscounted cashflows RM	Within One (1) year RM	One (1) to Five (5) years RM	Over Five (5) years RM
Financial liabilities					
Trade and other payables Loans and	1,795,562	1,795,562	1,795,562	-	-
borrowings Lease liabilities	12,600,000 9,599	12,600,000 9,752	12,600,000 9,752	-	-
-	14,405,161	14,405,314	14,405,314	-	-

Annual Report 2020

#### 31.12.2019

#### **Financial liabilities**

Trade and other payables Loans and	1,729,065	1,729,065	1,729,065	-	-
borrowings Lease liabilities	15,100,000 33,240	15,100,000 34,806	15,100,000 25,054	- 9,752	-
	16,862,305	16,863,871	16,854,119	9,752	-

#### (iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's and the Company's exposure to interest rate risk arises mainly from their loans and borrowings. Most of the Group's and the Company's loans and borrowings are charged a fixed interest rate plus the financial institutions' cost of fund per annum. The fixed interest rate is reviewed annually. Whilst, the cost of fund used by the financial institutions vary according to the rates set by the respective financial institutions. Meanwhile, interest rates charged on finance leases are fixed at the inception of the finance lease arrangements. The investments in financial assets are mainly short term in nature and have been mostly placed in fixed deposits and short-term investments.

The Group's policy is to manage interest cost using a mix of fixed and floating rate debts.

#### 34. Financial instruments (cont'd)

#### (b) Financial risk management (cont'd)

#### (iii) Interest rate risk (cont'd)

The following table details the sensitivity analysis to a reasonably possible change in the interest rates as at the end of the reporting period, with all other variables held constant:

	Grou (Decrease)/	•	Company (Decrease)/Increase	
Effects on profit after taxation	2020 RM	2019 RM	2020 RM	2019 RM
Increase of 50bp (2019: 25bp)	(113,438)	(68,966)	(15,120)	(9,060)
Decrease of 50bp (2019: 25bp)	113,438	68,966	15,120	9,060

#### (iv) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in foreign exchange rate.

The Group holds cash and bank balances denominated in foreign currencies for working capital purposes. As at the reporting date, such foreign currency balances (mainly in AUD, USD and SGD) amounted to RM3,726,972 (2019: RM4,277,080).

The following table demonstrates the sensitivity of the Group's profit before tax to a reasonably possible change in the AUD, USD and SGD exchange rates against the respective functional currencies of the Group entities, with all other variables held constant:

	Group (Decrease)/Increase in profit before tax		
	2020 RM	2019 RM	
AUD/RM - strengthened 5% (2019: 5%) - weakened 5% (2019: 5%)	(97,691) 97,691	(118,076) 118,076	
USD/RM - strengthened 5% (2019: 5%) - weakened 5% (2019: 5%)	(26,006) 26,006	(26,527) 26,527	
SGD/RM - strengthened 5% (2019: 5%) - weakened 5% (2019: 5%)	(17,929) 17,929	(17,926) 17,926	

#### 35. Fair value information

The financial assets and financial liabilities maturing within the next twelve (12) months approximated their fair values due to the relatively short-term maturity of the financial instruments.

The carrying amount of the variable rate term loans approximated their fair value as the loans will be re-priced to market interest rate on or near reporting date.

The fair value of quoted shares is determined directly by quoted bid prices in an active market at reporting date.

The fair value of unquoted shares is determined by reference to a selling price agreement and adjusted net tangible asset.

The fair value of investments in short-term instruments are based on daily price quotes by the funds.

As at the reporting date, the Group and the Company held the following at fair value in the statement of financial position:

Group		Carrying amount	Level 1	Level 2	Level 3
31.12.2020	Note	RM	RM	RM	RM

#### 36. Capital management

The primary objective of the Group's and of the Company's capital management is to ensure that they maintain a strong credit rating and healthy capital ratios in order to support their businesses and maximise shareholders' value.

The Group and the Company manage their capital structure, and make adjustment to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group and the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares. The Group's strategies were unchanged from the previous financial year.

The Group and the Company monitor capital using gearing ratio. The gearing ratio is calculated as net debt divided by total equity. Net debt is calculated as borrowings plus payables less cash and bank balances and short-term investments.

#### 36. Capital management (cont'd)

The gearing ratio of the Group and the Company as at the end of the reporting period was as follows:

	Gre	oup	Company		
		Restated			
	2020	2019	2020	2019	
	RM	RM	RM	RM	
Loans and borrowings	112,104,788	131,263,129	12,600,000	15,100,000	
Lease liabilities	5,105,287	4,831,978	9,599	33,240	
Trade and other payables	26,322,193	31,799,478	1,795,562	1,729,065	
Less: Cash and bank					
balances	(32,606,598)	(20,764,536)	(959,148)	(1,217,889)	
Short-term investments	(17,573,020)	(16,319,942)	(13,453)	(12,174)	
Net debt	93,352,650	130,810,107	13,432,560	15,632,242	
Total equity	504,433,648	489,139,971	213,195,893	208,429,327	
Gearing ratio	19%	27%	6%	7%	

The Group maintains a gearing ratio that complies with the applicable debt covenant as at the reporting date. The Group is not subject to any other externally imposed capital requirements.

#### 37. Segment information

#### (i) **Operating segment**

For management purposes, the Group is organised into business units based on its products and services, and has three (3) reportable operating segments as follows:

Plantation	Cultivation of oil palm
Mill	Milling and sale of oil palm products
Power plant	Power generation and sale of biomass by-products
All other segments	Extraction and sale of earth stone, operation of a hotel and others

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects as explained in the table below, is measured differently from operating profit or loss in the consolidated statement of profit or loss and other comprehensive income. Group financing (including finance costs) and income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Notes to the Financial Statements for the financial year ended 31 December 2020 (cont'd)

#### **37.** Segment information (cont'd)

#### (i) **Operating segment** (cont'd)

- (a) Inter-segment revenue are eliminated on consolidation. This is represented mainly by sale of fresh fruit bunches by plantation segment to mill segment and sale of earth and stones by quarry segment (included in All other segments) to plantation and mill segments.
- (b) The profit from inter-segment sales is deducted from segment profit to arrive at "Profit before tax" presented in the consolidated statement of profit or loss and other comprehensive income.

#### (ii) Geographical information

No geographical information has been provided as the Group activities are predominantly conducted in Malaysia.

#### (iii) Major customers

Revenue from 4 (2019: 4) major customers amounted to RM223,946,915 (63% of revenue) (2019: RM208,128,209 (68% of revenue)) arising from mill segment.

#### 38. Significant and subsequent events

The emergence and spread of the coronavirus (COVID-19) in early 2020 has affected businesses and economic activities in Malaysia and beyond. The Group has not been adversely affected as at the date of this report. No adjustments are required to the financial position and operating results for the current financial year. The Group shall continue to monitor the developments of the COVID-19 situation closely, assess and react actively to its impacts on the financial position and operating results of the Group for the financial year ending 31 December 2021. This includes continuous special attention to be given towards ensuring all standard operating procedures set by the Government are complied with to minimise the risk of COVID-19 occurrences and addressing the acute labour shortages, which may impact the operations of the Group negatively.

#### **39.** Prior year adjustments

During the current financial year, the Group has undertaken a detailed reassessment of facts and information with regards to the Renewable Energy Power Purchase Agreements ("REPPAs") entered into by its subsidiaries, Cash Horse (M) Sdn. Bhd. ("CHSB") and Mistral Engineering Sdn. Bhd. ("MESB") with Sabah Electricity Sdn. Bhd. ("SESB") for their biomass and biogas power plants respectively.

Based on the above reassessment of the terms and conditions of the REPPAs and recoverability of the biomass and biogas power plants at the end of the term of the REPPAs, the Group has determined that the residual interests in the infrastructures at the end of the terms of the arrangements are significant and in which SESB has no control over. Consequently, the Group restated the biomass and biogas power plants initially recognised under IC 12 Service Concession Agreements ("IC 12") under financial assets to plant and equipment under MFRS 116 Property, Plant and Equipment ("MFRS 116") as required conditions pursuant to IC 12 are not met.

The above restatement has been effected retrospectively. This involved reclassification of service concession receivables to plant and equipment and adjustment for the recomputed depreciation to date, net of the resulting deferred taxation impact.

#### 39. Prior year adjustments (cont'd)

The table below shows the impact of changes to the statement of profit or loss and other comprehensive income and statement of financial position of the Group resulting from the change in accounting policies of the biomass and biogas power plants of the Group from IC 12 to MFRS 116:

#### Statement of profit or loss and other comprehensive income

Date:

Signature of Shareholder

#### NOTES:

- 1. Only members whose names appear on the Record of Depositors as at 21 May 2021 shall be entitled to attend the AGM or appoint proxies in his/her stead or in the case of a corporation, a duly authorised representative to attend and to vote in his/ her stead.
- 2. A member, other than an exempt authorised nominee is entitled to appoint one (1) or two (2) proxies to attend and vote instead of him/her. A proxy must be 18 years and above and need not be a member of the Company.
- Where a member appoints two (2) proxies, the appointments shall be invalid unless he/she specifies the proportions of his/her holdings to be represented by each proxy.
   Where a member of the Company is an Exempt Authorised Nominee which holds ordinary shares in the Company in an Omnibus Account, there is no limit to the number of proxies which the Exempt Authorised Nominee may appoint in respect of each Omnibus Account it holds but the proportion of holdings to be represented by each proxy must be specified.
- 5. The instrument appointing a proxy shall be in writing under the hand of the appointer or his/her attorney duly authorised in writing or if the appointer is a corporation, either under the corporation's seal or under the hand of an officer or attorney duly authorised. If under the hand of attorney/authorised officer, the Power of Attorney or Letter of Authorisation must be attached.
- 6. The instrument appointing a proxy must be deposited at the Share Registrar's office of the Company, Boardroom Share Registrars Sdn. Bhd. at 11th Floor, Menara Symphony, No. 5, Jalan Professor Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor, Malaysia not less than 48 hours before the time appointed for holding the Meeting or adjourned Meeting either by hand, post, courier or electronic mail to bsr.helpdesk@boardroomlimited.com or fax (603)78904670 before the Form of Proxy lodgement cut-off time as mentioned above, otherwise the instrument of proxy should not be treated as valid.
- 7. For verification purposes, members and proxies are required to produce their original identity card at the registration counter. No person will be allowed to register on behalf of another person even with the original identity card of that other person.
- 8. Personal Data Privacy By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the AGM and/or any adjournment thereof, a member of the Company hereby agree and consent that any of your personal data in our possession shall be processed by us in accordance with the Personal Data Protection Act 2010. Further, you hereby warrant that relevant consent has been obtained by you for us to process any third party's personal data in accordance with the said Act.
