MJC Murals Add Colour And Character To The City

Group CEO's Message *Warkah CEO Kumpulan*

Mr. Stephen Chin

Salam sejahtera!

Two years after the COVID-19 pandemic began, experts have thankfully learned a lot more about how to keep the virus under control and with the development of safe, effective vaccines; more countries are learning to live with the virus and shifting towards a return to normalcy, declaring their intention to start treating COVID-19 like other endemic diseases.

Over the past few years, our team has adapted positively to new working norms. As Malaysia moves steadily towards the endemic phase, I hope that we take all the learnings we have acquired during the pandemic and bring this forward, not forgetting to still take precautionary measures against the disease to limit its spread.

With the prescribed COVID-19 guidelines and SOPs in place and observed, community outreach activities and awareness initiatives related to best practices in waste management, general cleanliness and sustainable living should carry on and adapt to challenging times. This was exactly what was in mind when we joined Padawan Municipal Council (MPP) together with MJC City Development Sdn Bhd in an initiative to brighten up the MJC Batu Kawah New Township in Kuching with the launching of the "My City, My Home, Clean and Green" mural painting competition in April 2022. We hope that the amazing and creative art by the participants will inspire everyone to come together collectively in keeping our beloved Kuching City a vibrant, colourful, safe, clean, healthy and sustainable city to live in. We also hope the initiative amplifies the important messages of environmental protection and sustainable living.

This issue of Madah Kita also highlights our other efforts on corporate social responsibility as well as Health, Safety and Environment (HSE). Pursuing the highest standards of excellence in all of our business practices has helped us deliver significant success, and remains essential to our continued growth. We must remain steadfast in our commitment to advance quality waste and resource management solutions in its every form. More events are coming up and we hope to share them with you in our next issue of Madah Kita.

Thank you.

Salam sejahtera!

Dua tahun selepas pandemik COVID-19 bermula, para pakar telah banyak mempelajari tentang cara mengawal virus ini. Dengan perkembangan vaksin yang selamat dan berkesan; semakin banyak negara belajar hidup bersama virus dan bergerak untuk kembali kepada keadaan normal, dan menyatakan hasrat mereka untuk menangani COVID-19 seperti penyakit-penyakit endemik yang lain.

Sejak beberapa tahun kebelakangan ini, pasukan kita telah menyesuaikan diri dengan norma kerja baru dengan positif. Dalam Malaysia memasuki fasa endemik, saya berharap kita akan bawa apa yang kita pelajari sepanjang pandemik ini dan bergerak ke hadapan, tidak melupakan langkah-langkah pencegahan yang harus diambil untuk menghentikan penularan penyakit ini.

Dengan adanya panduan dan pematuhan SOP COVID-19, aktiviti-aktiviti penglibatan komuniti dan inisiatif-inisiatif promosi berkaitan amalan terbaik dalam pengurusan sisa, kebersihan umum dan kehidupan lestari harus diteruskan terutamanya di dalam masa yang mencabar ini. Perkara inilah yang difikirkan apabila kami menyertai inisiatif Majlis Perbandaran Padawan (MPP) bersama dengan MJC City Development Sdn Bhd untuk mengindahkan Bandar Baru MJC Batu Kawah di Kuching dengan pelancaran pertandingan melukis mural "My City, My Home, Clean and Green" pada bulan April 2022. Kami berharap hasil kerja peserta yang hebat dan kreatif dapat memberi inspirasi kepada setiap orang untuk bersama-sama menjadikan bandaraya tercinta kita, Bandaraya Kuching sebuah tempat yang bertenaga, penuh warna, selamat, bersih, sihat dan lestari untuk didiami. Kami juga berharap agar inisiatif-inisiatif tersebut dapat memperkuatkan lagi suara-suara dan mesej-mesej tentang perlindungan alam sekitar dan kehidupan lestari.

Isu Madah Kita kali ini juga menengahkan usaha-usaha tanggungjawab sosial korporat kita yang lain dan juga Kesihatan, Keselamatan dan Alam Sekitar (HSE). Mengejar standard kecemerlangan yang tinggi di dalam amalan perniagaan kami telah membantu kami menyampaikan kejayaan yang ketara, dan tetap penting di dalam perkembangan kami yang berterusan. Kita harus terus teguh dalam komitmen kita memperluaskan kualiti pengurusan penyelesaian sisa dan sumber dalam apa jua bentuk. Banyak lagi acara yang akan datang dan kami berharap untuk berkongsi dengan anda dalam isu Madah Kita yang akan datang.

Terima kasih.
